The Agency has been informed by Georgian importers, concerning the export of peanut consignments from Federative Republic of Brazil to Georgia, that there have been complications and possible misunderstandings with regards to the concrete documentation required to accompany said commodity in question. The LEPL–National Food Agency of the Ministry of Environmental Protection and Agriculture of Georgia would like to hereby state, that the requirements for the import of consignments, including provisions applying to the documentation, are stipulated by the Resolution № 567 of the Government of Georgia, of December 23rd, 2016, on the Approval of Border Control Rules for Safety of Food/Feed of Non-Animal Origin, compliant with corresponding EU legislation. For the entry into Georgia, a health certificate issued by the competent authority of the exporting country is mandated. Please refer to a model certificate enclosed herewith.

The Agency expresses hope, that this issue has been clarified in full and any possible future misunderstandings shall be avoided.
