

Re: Garlic EWG

by [redacted] » Wed Mar 14, 2018 10:10 am

Brazil would like to present a specific comments to the proposal.

We would like to indicate that the proposal as presented is not reflecting the decision of the last Session of CCFFV as stated on Para 22 of REP18/FFV "that the standard should cover garlic (fresh, semi-, dry) **with and without the skin to reflect worldwide trade practices**".

Therefore, we would like to recommend considering the adoption of the introductory text as presented below:

From -

2. DEFINITION OF PRODUCE

This Standard applies to bulbs of commercial varieties of garlic grown from *Allium sativum* L., of the Alliaceae family, to be supplied fresh with different degrees of dryness of outer skin to the consumer, after preparation and packaging. Green garlic with full leaves and undeveloped cloves and garlic for industrial processing are excluded.

To

2. DEFINITION OF PRODUCE

This Standard applies to bulbs of commercial varieties of garlic grown from *Allium sativum* L., of the Alliaceae family, to be supplied fresh with and without the skin, whereas presented with skin, different degrees of dryness of outer skin to the consumer, after preparation and packaging apply. Green garlic with full leaves and undeveloped cloves and garlic for industrial processing are excluded.
