

OECD BROCHURE ON CHICORY VERSION 2019

Dear Colleagues,

We have been criticized for photo 51 in the explanatory brochure version 2019 as being very bad and showing hollowness and a type of discoloration resembling to rotting. It is requested to replace this photo by a more appropriate one.

Please find below photos 50 and 51 in the version of 2019 and on the last slide an alternative for photo 51.

It would be great if we could discuss this request and come to an agreement. The agreement could then be presented to the Plenary Meeting in December 2020.

Kind regards

Ulrike Bickelmann

CLASSIFICATION VERSION 2019

Photo 50:
*Slight reddish discoloration of the
tissue of the axis
– Limit allowed Class I*

Photo 51:
*Reddish discoloration of the tissue
of the axis
