

LAW Nº 12.890, OF DECEMBER 10, 2013.

Amends Law Nº 6.894, of December 16, 1980, to include remineralizers as an input category intended for agriculture and other provisions.

THE VICE PRESIDENT OF THE REPUBLIC as acting PRESIDENT OF THE REPUBLIC I would like to inform you that the National Congress enacted the following law and I will sanction it:

Art. 1º, Law Nº 6.894, of December 16, 1980, comes into effect with the following amendments:

“Art. 1º: The inspection and monitoring of the production and trade of fertilizers, correctives, inoculants, stimulants or biofertilizers, remineralizers, and substrates for plants used for agricultural purposes are pursuant to this Law”. (NR)

“Art. 3º

.....  
e) remineralizer, material of mineral origin that is only reduced and classified in size by mechanical processes and changes soil fertility indexes through the addition of macro and micronutrients to plants, as well as enhancing the physical properties, physiochemical properties or biological activity of the soil;

f) plant substrate, the product used as a means for plant growth”. (NR)

“Art. 4º: Individuals or legal entities that produce or sell fertilizers, correctives, inoculants, stimulants or biofertilizers, remineralizers, and substrates for plants are required to register with the Ministry of Agriculture, Livestock and Supply, in accordance with regulations.

.....” (NR)

Art. 2º Law nº 6.894, December 16, 1980, comes into force with the following specifications:

“Regulates the inspection and monitoring of the production and trade of fertilizers, correctives, inoculants, stimulants or biofertilizers, remineralizers, and substrates for plants used for agriculture and other purposes.”

Art. 3º This Law comes into effect on the date of its publication.

Brasília, December 10, 2013.
