Procedures for emergency situations ANAC Training Center

In case of fire

In case of fire, follow the procedures listed below:

1. Keep calm and **do not try to put out the fire**.
2. Localize the closest exit and the emergency signs.
3. Follow the course defined in the closest Escape Route and get out of the building.
4. Do not take the elevator. Use the stairs.
5. If you see fire and you are close to an alarm trigger it and return to the exit path immediately until you get to a safe area outside the building.

Sudden illness or accidents

In case of sudden illness or accident, follow the procedures listed below:

1. Keep calm.
2. In case of accident do not move the victim.
3. Inform the emergency to the professional responsible for the building reception desk who will call SAMU (the emergency service) dialing 192.
4. If you are a qualified healthcare professional, give assistance to the victim.

Basic safety rules

Basic safety rules for ANAC Training Center:

1. Smoking is allowed only outside the Training Center building.
2. Turn off electronic devices and computers after using them.
3. Use your mobile phone only in safe places, away from stairs, windows, railings, mezzanines etc.
4. Always use the Personal Protection Equipment when required.
5. Do not use fuel or devices that generate heat or sparks (lighters, alcohol etc.).
6. Keep circulation areas free of obstacles, liquids or objects that could cause accidents.
7. Do not carry out activities without the proper training, qualification or authorization.
8. Do not work under the influence of alcohol or illicit drugs.
9. Inform the Direction of the Training Center about any dangerous condition.
10. Be alert and respect safety rules.

Safety procedures

1. Safety Rules and Escape Routes are presented and explained in the beginning of each training event.
2. Safety guidelines are disclosed in the Training Center Webpage and fixed throughout the building area.
3. Personnel responsible for supporting training events, for the reception desk and other parties involved are periodically trained.
4. Signaling and basic care equipment, alarms and fire extinguishers are regularly submitted to maintenance inspections.
