

TABLE OF CONTENTS

	<u>Page</u>
Executive Summary	i
Table of Contents	ii
List of Figures and Tables	iii
1. Introduction	1
1.1 Principles of Surface Geochemistry	4
1.2 The Origin of Surface Hydrocarbons	5
a. Petroleum source rocks	5
b. Biological processes	5
c. Anthropogenetic contamination	6
d. Organic matter present in surface soils, sediments and rocks	6
e. Subsurface oil and gas accumulations	6
1.3 Migration Processes and Mechanisms	6
a. Diffusion	7
b. Effusion	8
c. Buoyancy	8
1.4 Surface Geochemical Prospecting Methods	9
a. Direct methods	9
b. Indirect methods	10
c. Non-conventional methods	10
1.5 Surface Configuration of Hydrocarbon Anomalies	10
a. Longitudinal or linear	11
b. Annular or halo-like anomalies	11
c. Irregular shape	11
2. Methodology	12
2.1 Sampling Procedures	12
2.2 Laboratory Procedures	12
2.3 Statistical Procedures	14
3. Geology and Petroleum Systems	14
3.1 Tectonic and Stratigraphic Evolution	15
3.2 Source Rocks	18
3.3 Oil chemistry	19
3.4 Exploration Significance	21
3.5 Timing of Generation and Migration	21
3.6 Reservoirs	22
4. Discussion of Results	23
5. Map Interpretation and Exploratory Implications	32
6. Conclusions	33
7. References	35

LIST OF FIGURES AND TABLES

	<u>Page</u>
Figures	
1. Location of the Recôncavo Basin.	2
2. Recôncavo Blocks BT-REC-1, BT-REC-2 and BT-REC-3.	3
3. Sample locations relative to oil fields.	3
4. Principals of surface geochemistry.	4
5. Types of surface expressions of subsurface oil accumulations.	11
6. Location map and major structural elements of the Recôncavo basin.	15
7. Stratigraphic chart of the Recôncavo basin	17
8. Geochemical log showing the Lower Cretaceous lacustrine freshwater organic-rich shales of the Gomo Mb.	19
9. Oil Family distribution map.	20
10. Events cart of the Gomo-Marfim (!) petroleum system, Recôncavo basin	22
11. Cross sections through the pre-rift and syn-rift Agua Grande oilfield and the Miranga syn-rift oilfield	23
12. Absolute concentrations (ppm) and statistical anomalies of methane (C1).	25
13. Absolute concentrations (ppm) and statistical anomalies of ethane (C2).	26
14. Absolute concentrations (ppm) and statistical anomalies of propane (C3).	27
15. Absolute concentrations (ppm) and statistical anomalies of butane (C4).	28
16. Absolute concentrations (ppm) and statistical anomalies of pentane (C5).	29
17. Absolute concentrations (ppm) and statistical anomalies of wet gas (C2-5).	30
18. Cross-plots of gas concentrations and gas ratios.	31
Tables	
1. Gas concentration data - Recôncavo Basin.	23
Appendices	
I. Analytical methods, QA/QC and statistical treatment.	40
II. Montage	48
