

ACKNOWLEDGEMENTS

Core Laboratories Sales N.V. wishes to acknowledge the support and participation of ANP for assistance in providing the database. Moyses Lachter of Core Laboratories Brasil Ltda is thanked for logistical support and liaison with ANP. Principal personnel involved with the study are as follows:

CORE LABORATORIES SALES NV STUDY TEAM

TECHNICAL CO-ORDINATION	ROBERT HULSBOS
BIOSTRATIGRAPHY	PAUL FRAME DR. ANTOINE WONDERS
GEOCHEMISTRY	JAMES ARMSTRONG
RESERVOIR GEOLOGY	DR. ANNE McAFEE
RESERVOIR PROPERTIES SEAL ANALYSIS	TOM DUNN
DATABASE MANAGEMENT / TECHNICAL SUPPORT	GILLIAN HORN

The following persons made substantial contributions to the study:

Biostratigraphy	Keith Richards, Susan Matthews, Wantoro, Dr. Alaa Baky, Wantoro
Geochemistry	Budi Hamid
Reservoir Geology	Dr. Carlos Jorge Abreu, Aristoteles Rodrigues de Oliveira
Technical Support	Dr. Michael de Smet, Sabat Prasetyo, Dr. Steve Poole

LIST OF CONTENTS

VOLUME I - TEXT

Proprietary Notice.....	1
Acknowledgements	2
List of Contents	3
Executive Summary.....	10
1. Introduction	12
1.1 Study Area.....	12
1.2 Objectives of the Study	13
1.3 Study Database.....	13
1.4 Report Organization and Data Presentation	14
2. Structural Framework	15
2.1 Introduction.....	15
2.2 Early Cretaceous Paraná Volcanism and the Origin of the Rio Grande - Walvis Ridge.....	16
2.3 Salt Tectonics	17
3. Stratigraphic Framework	18
4. Biostratigraphy, Paleoenvironments and Sequence Stratigraphy	19
4.1 Introduction and Objectives	19
4.2 Biostratigraphic Database	19
4.2.1 Introduction	19
4.2.2 New Analyses and Methodology.....	20
4.3 Biostratigraphic Zonation Schemes	21
4.3.1 Introduction	21
4.3.2 Planktonic Foraminifera Zonation Scheme	22
4.3.3 Calcareous Nannofossil Zonation Scheme	25
4.3.4 Palynological Zonation Scheme	25
4.4 Paleoenvironments	28
4.5 Sequence Stratigraphic Interpretation	28
4.5.1 Introduction	28
4.5.2 Sequence SALT: Late Aptian.....	29
4.5.3 Sequence I - II: Late Aptian - Albian	30
4.5.4 Sequence III: Late Cenomanian to Middle Turonian	31
4.5.5 Sequence IV - V: Late Turonian to Santonian	32
4.5.6 Sequence VI: Late Santonian to Campanian	34
4.5.7 Sequence VII - VIII: Late Campanian to Maastrichtian.....	36
4.5.8 Sequence IX: Paleocene	37
4.5.9 Sequence X: Early to Middle Eocene.....	37
4.5.10 Sequence XI: Late Eocene	38
4.5.11 Sequence XII: Oligocene.....	38
4.5.12 Sequence XIII: Early to Middle Miocene.....	38
4.5.13 Sequence XIV: Late Miocene	39
4.5.14 Sequence XV: latest Late Miocene to Recent	39
4.6 Biostratigraphic Conclusions and Recommendations	40
5. Reservoir Geology and Depositional History	41
5.1 Introduction and Objectives	41
5.1.1 Objectives.....	41
5.1.2 Database and Methodology	41
5.1.3 Presentation of Data	42
5.2 Sequence Descriptions	43
5.2.1 Introduction	43
5.2.2 Sequence I - II: Late Aptian to Early Cenomanian.....	43
5.2.3 Sequence III: Late Cenomanian to Middle Turonian	44

5.2.4	Sequence IV - V: Late Turonian to Santonian	45
5.2.5	Sequence VI: Late Santonian to Campanian	47
5.2.6	Sequence VII - VIII: Late Campanian to Maastrichtian.....	48
5.2.7	Sequence IX: Paleocene	50
5.2.8	Sequence X: Early to Middle Eocene.....	51
5.2.9	Sequence XI: Late Eocene	53
5.2.10	Sequence XII to XIV: Oligocene to Miocene	54
5.3	Depositional History	55
5.3.1	Introduction	55
5.3.2	Cretaceous Sedimentation Patterns	55
5.3.3	Tertiary Sedimentation Patterns	58
5.4	Seal Rock Evaluation	60
5.4.1	Introduction	60
5.4.2	Seal Capacity Calculations	61
5.4.3	Data and Results	62
6.	Geochemistry	67
6.1	Introduction and Objectives	67
6.2	Geochemical Database	67
6.3	Source Rock Evaluation	68
6.3.1	Introduction	68
6.3.2	Sequence I - II: Late Aptian to Albian	69
6.3.3	Sequence III: Late Cenomanian to Middle Turonian	69
6.3.4	Sequence IV - V: Late Turonian to Santonian	70
6.3.5	Sequence VI: Late Santonian to Campanian	70
6.3.6	Sequence VII - VIII: Late Campanian to Maastrichtian.....	71
6.3.7	Sequence IX: Paleocene	71
6.3.8	Sequence X: Early to Middle Eocene.....	71
6.3.9	Sequence XI: Late Eocene	71
6.3.10	Sequence XII: Oligocene.....	71
6.3.11	Sequence XIII: Miocene.....	71
6.4	Thermal Maturation	72
6.5	Tested Oils	73
6.5.1	Main Features of 1-RJS-539 and 1-BSS-75 Oil	73
6.5.2	Comparison with other Brazilian Oils	74
6.5.3	Oil - Source Correlation	75
6.6	Geochemical Conclusions	76
7.	Santos Basin Bibliography	78

LIST OF CONTENTS

VOLUME II – FIGURES AND TABLES

Introduction

- 1.1 Regional Index and Basin Location Map
- 1.2 Santos Basin, Brasil – Phase II Deepwater, Study Well Location Map
- 1.3 Bathymetric Map Offshore Southeast Brasil
- 1.4 Geological Map of the Onshore Area of the Santos Basin

Structural Framework

- 2.1 South Atlantic - Early Cretaceous Plate Tectonic Reconstruction
- 2.2 Structure Map - Top Evaporites
- 2.3 Opening of the South Atlantic, the Origin of the Rio Grande Rise and the Early Cretaceous Parana Flood Basalts
- 2.4 Opening of the South Atlantic and the Origin of the Aptian Evaporites

Stratigraphic Framework

- 3.1 Santos Basin - Sequence Chronostratigraphy, Depositional Environments and Tectonic History
- 3.2a Sequence Stratigraphy Definitions for the Cretaceous
- 3.2b Sequence Definitions for the Cretaceous from the Santos Basin Study (Core Laboratories, 2001)
- 3.3 Well Overview - Sequence Thicknesses and TD's
- 3.4 Santos Basin - Sediment Isopach Map

Biostratigraphy

- 4.1 Index Map - Biostratigraphic Database and Distribution by Sequence
- 4.2 Principal Biostratigraphic Markers as used in this Study - Planktonic Foraminifera (Cretaceous)
- 4.3 Principal Biostratigraphic Markers as used in this Study - Planktonic Foraminifera (Tertiary)
- 4.4 Principal Biostratigraphic Markers as used in this Study - Calcareous Nannofossils (Cretaceous)
- 4.5a Principal Biostratigraphic Markers as used in this Study - Calcareous Nannofossils (Tertiary)
- 4.5b Principal Biostratigraphic Markers as used in this Study - Calcareous Nannofossils (Tertiary cont'd)
- 4.5c Comparison of the World-Wide Tertiary and Cretaceous Nannofossil Zonation Schemes with the Petrobras N-Zonation Scheme (after Richter *et al.* 1993)
- 4.6 Principal Biostratigraphic Markers as used in this Study - Selected Palynomorphs (Cretaceous Dinocysts, Pollen and Spores)
- 4.7 Santos Deepwater: Comparison of Palynological Zonation schemes for the Cretaceous
- 4.8 Stratigraphic Well Summary 1-BSS-69
- 4.9 Stratigraphic Well Summary 1-BSS-75
- 4.10 Stratigraphic Well Summary 1-BSS-77
- 4.11 Stratigraphic Well Summary 1-BSS-80
- 4.12 Stratigraphic Well Summary 1-BSS-81
- 4.13 Stratigraphic Well Summary 1-BSS-83
- 4.14 Stratigraphic Well Summary 1-RJS-539
- 4.15 Stratigraphic Well Summary 1-RJS-542
- 4.16 Index Map - Regional Well Correlations

Reservoir Geology

- 5.1 Index Map - Reservoir Geology Database and Distribution by Sequence
- 5.2 Sedimentological Summary Sequence I - II: Late Aptian - Cenomanian
- 5.3 Sedimentological Summary Sequence III: Cenomanian - Turonian
- 5.4 Sedimentological Summary Sequence IV - V: Late Turonian - Santonian
- 5.5 Sedimentological Summary Sequence VI: Late Santonian - Campanian
- 5.6 Sedimentological Summary Sequence VII - VIII: Late Campanian - Maastrichtian
- 5.7 Sedimentological Summary Sequence IX: Paleocene
- 5.8 Sedimentological Summary Sequence X: Early - Middle Eocene
- 5.9 Sedimentological Summary Sequence XI - XIII: Late Eocene - Miocene
- 5.10 Paleogeographic Map for Sequences I - II: Late Aptian - Early Cenomanian
- 5.11 Paleogeographic Map for Sequence III: Cenomanian - Turonian
- 5.12 Paleogeographic Map for Sequence IV - V: Late Turonian - Santonian
- 5.13 Paleogeographic Map for Sequence VI: Campanian
- 5.14 Paleogeographic Map for Sequence VII - VIII: Late Campanian - Maastrichtian
- 5.15 Paleogeographic Map for Sequence IX: Paleocene
- 5.16 Paleogeographic Map for Sequence X: Early - Middle Eocene
- 5.17 Paleogeographic Map for Sequence XI: Late Eocene
- 5.18 Paleogeographic Map for Sequence XII: Oligocene
- 5.19 Paleogeographic Map for Sequence XIII - XIV: Miocene

Geochemistry

- 6.1 Index Map - Geochemistry Database
- 6.2 Geochemical Maturity Data - Reference Index
- 6.3 Geochemistry Data Summary Chart 1-BSS-69
- 6.4 Geochemistry Data Summary Chart 1-BSS-75
- 6.5 Geochemistry Data Summary Chart 1-BSS-77
- 6.6 Geochemistry Data Summary Chart 1-BSS-80
- 6.7 Geochemistry Data Summary Chart 1-BSS-81
- 6.8 Geochemistry Data Summary Chart 1-BSS-83
- 6.9 Geochemistry Data Summary Chart 1-RJS-539
- 6.10 Geochemistry Data Summary Chart 1-RJS-542
- 6.11 Source Rock Summary Table and Organic Matter Type in Post-Salt Sequences
- 6.12 CARPLOT Representations of Potential Source Horizons in Wells 1-RJS-539 and 1-RJS-542
- 6.13 Vitrinite Reflectance Trends and Significant Maturity Thresholds
- 6.14 Vitrinite Reflectance Trends and Significant Maturity Thresholds
- 6.15 Santos Deep Oils - Whole Oil Chromatograms
- 6.16 Comparison of Whole Oil Chromatograms - Santos Basin and Central Basins
- 6.17 Santos Deep Oils - m/z 191 Mass Fragmentograms and Source Controlled Biomarker Ratios
- 6.18 Santos Deep Oils - m/z 127 Mass Fragmentograms and Source Controlled Biomarker Ratios
- 6.19 Environmental Relationship of Oils indicated by Carbon Isotope Data
- 6.20 Crossplots of Gammacerane Index Data with Isotope, Gas Chromatography and GC-MS Ratios
- 6.21 Oil to Source Correlations and Source Related Biomarker Ratios

Tables

- 1.1 General Data of Wells Included in the Study
- 1.2 Surface Locations of Wells Included in the Study
- 1.3 Overview of Well Data Available to the Study
There are no tables for chapter 2
- 3.1a Sequence Tops in Meters
- 3.1b Sequence Tops in Feet
- 3.2a Sequence Thicknesses in Meters
- 3.2b Sequence Thicknesses in Feet
- 4.1 Biostratigraphic Data Available to the Study
- 5.1 Core Data Available to the Study
There are no tables for chapter 6

LIST OF CONTENTS

VOLUME III - WELL DATA

Enclosure 1	Well Data...1-BSS-69
	III.1.1 Well Data Summary
	III.1.2 Electric Logs
	III.1.3 Time vs Depth Curve
Enclosure 2	Well Data...1-BSS-75
	III.2.1 Well Data Summary
	III.2.2 Electric Logs
	III.2.3 Time vs Depth Curve
Enclosure 3	Well Data...1-BSS-77
	III.3.1 Well Data Summary
	III.3.2 Electric Logs
	III.3.3 Time vs Depth Curve
Enclosure 4	Well Data...1-BSS-80
	III.4.1 Well Data Summary
	III.4.2 Electric Logs
	III.4.3 Time vs Depth Curve
Enclosure 5	Well Data...1-BSS-81
	III.5.1 Well Data Summary
	III.5.2 Electric Logs
	III.5.3 Time vs Depth Curve
Enclosure 6	Well Data...1-BSS-83
	III.6.1 Well Data Summary
	III.6.2 Electric Logs
	III.6.3 Not Available: No Time vs Depth Data
Enclosure 7	Well Data...1-RJS-539
	III.7.1 Well Data Summary
	III.7.2 Electric Logs
	III.7.3 Not Available: No Time vs Depth Data
Enclosure 8	Well Data...1-RJS-542
	III.8.1 Well Data Summary
	III.8.2 Electric Logs
	III.8.3 Not Available: No Time vs Depth Data
Enclosure 9	Well Data...1SPS-32A
	III.9.1 Well Data Summary
	III.9.2 Electric Logs
	III.9.3 Not Available: No Time vs Depth Data

VOLUME IV - BIOSTRATIGRAPHY

Enclosure 1	Biostratigraphy...1-BSS-69 IV.1 Composite Biostratigraphic Chart
Enclosure 2	Biostratigraphy ...1-BSS-75 IV.2 Composite Biostratigraphic Chart
Enclosure 3	Biostratigraphy ...1-BSS-77 IV.3 Composite Biostratigraphic Chart
Enclosure 4	Biostratigraphy ...1-BSS-80 IV.4 Composite Biostratigraphic Chart
Enclosure 5	Biostratigraphy ...1-BSS-81 IV.5 Composite Biostratigraphic Chart
Enclosure 6	Biostratigraphy ...1-BSS-83 IV.6 Composite Biostratigraphic Chart
Enclosure 7	Biostratigraphy ...1-RJS-539 IV.7 Composite Biostratigraphic Chart
Enclosure 8	Biostratigraphy ...1-RJS-542 IV.8 Composite Biostratigraphic Chart
Enclosure 9	Biostratigraphy ...1SPS-32A IV.9 Not Available: No Biostratigraphical Data
Enclosure 10	IV.10.1 Well Correlation Panel A-A' IV.10.2 Well Correlation Panel B-B' IV.10.3 Well Correlation Panel C-C' IV.10.4 Well Correlation Panel D-D' IV.10.5 Well Correlation Panel E-E' IV.10.6 Well Correlation Panel F-F' IV.10.7 Well Correlation Panel G-G' (Palynology North) IV.10.8 Well Correlation Panel H-H' (Palynology South)

VOLUME V - RESERVOIR

Enclosure 1	Reservoir ...1-BSS-69 V.1.1 Sedimentological Log V.1.2 Core Log V.1.3 Petrographic Description V.1.4 Not Available: No Seal Rock Data V.1.5 Rock Typing Data V.1.6 Rock Type and Analog Petrophysical Data
Enclosure 2	Reservoir ...1-BSS-75 V.2.1 Sedimentological Log V.2.2 Core Log V.2.3 Petrographic Description V.2.4 Not Available: No Seal Rock Data V.2.5 Not Available: No Rock Typing Data V.2.6 Not Available: No Rock Type and Analog Petrophysical Data

Enclosure 3	Reservoir ...1-BSS-77
	V.3.1 Sedimentological Log
	V.3.2 Core Log
	V.3.3 Petrographic Description
	V.3.4 Seal Rock Data
	V.3.5 Not Available: No Rock Typing Data
	V.3.6 Not Available: No Rock Type and Analog Petrophysical Data
Enclosure 4	Reservoir ...1-BSS-80
	V.4.1 Sedimentological Log
	V.4.2 Not Available: No Core Taken
	V.4.3 Petrographic Description
	V.4.4 Seal Rock Data
	V.4.5 Rock Typing Data
	V.4.6 Rock Type and Analog Petrophysical Data
Enclosure 5	Reservoir ...1-BSS-81
	V.5.1 Sedimentological Log
	V.5.2 Core Log
	V.5.3 Petrographic Description
	V.5.4 Seal Rock Data
	V.5.5 Rock Typing Data
	V.5.6 Rock Type and Analog Petrophysical Data
Enclosure 6	Reservoir ...1-BSS-83
	V.6.1 Sedimentological Log
	V.6.2 Core Log
	V.6.3 Petrographic Description
	V.6.4 Seal Rock Data
	V.6.5 Rock Typing Data
	V.6.6 Rock Type and Analog Petrophysical Data
Enclosure 7	Reservoir ...1-RJS-539
	V.7.1 Sedimentological Log
	V.7.2 Not Available: No Core Taken
	V.7.3 Petrographic Description
	V.7.4 Not Available: No Seal Rock Data
	V.7.5 Rock Typing Data
	V.7.6 Rock Type and Analog Petrophysical Data
Enclosure 8	Reservoir ...1-RJS-542
	V.8.1 Sedimentological Log
	V.8.2 Not Available: No Core Taken
	V.8.3 Petrographic Description
	V.8.4 Seal Rock Data
	V.8.5 Rock Typing Data
	V.8.6 Rock Type and Analog Petrophysical Data
Enclosure 9	Reservoir...1-SPS-32A
	V.9.1 Sedimentological Log
	V.9.2 Not Available: No Core Taken
	V.9.3 Not Available: Petrographic Description
	V.9.4 Not Available: No Seal Rock Data
	V.9.5 Not Available: No Rock Typing Data
	V.9.6 Not Available: No Rock Type and Analog Petrophysical Data
