Final remarks

The background is a light green color with several decorative, flowing green lines of varying shades and thicknesses. One prominent line starts from the top right and curves down towards the bottom left. Another line starts from the bottom left and curves up towards the top right. There are also some thinner, more delicate lines that weave through the space.

#1

**How the Open Acreage
works?**

What is the Open Acreage?

The Open Acreage is the continuous offer of exploratory blocks and areas with marginal accumulations located in any onshore or offshore basins

Two categories

PRODUCTION SHARING REGIME (PSA)

CONCESSION REGIME

ResoluTIONS CNPE n° 17/2017 e 27/2021

Authorizes ANP to define and auction blocks in any onshore or offshore basins and to conduct the open acreage process

Established the Permanent Offer system as the preferential system for bidding rounds for O&G

Objectives of the Open Acreage

Expand Brazilian reserves and knowledge of Brazilian sedimentary basins

Bring opportunities to companies of different profiles and sizes

Decentralize exploratory investment in the country and increase the participation of small and medium-sized companies

A Cyclical Mechanism

Assessment by interested parties

Areas in stock available for Assessment, free download of various data

Inclusion of areas

After Studies, Environmental Guidelines and Joint Manifestation MMA and MME Publication of the Notice

Public Session

Public Offering Session held

Registration

Permanent registration of bidders for the Permanent Offer (the documents must be kept updated)

Declaration of Interest

By registered company accompanied by Offer Guarantee

Opening of the Cycle

Disclosure of the Schedule

Closure of the
Cycle

How to Start a New Cycle?

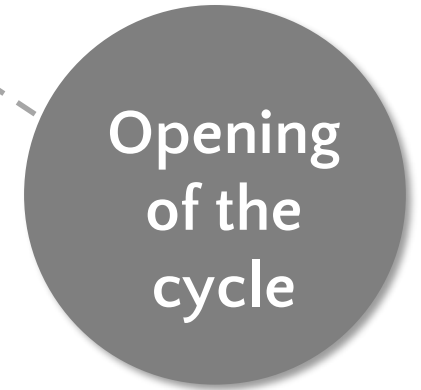

At any time, a registered bidder may submit a declaration of interest in any sector or block

*Within an open Cycle: deadlines established in the schedule

All declarations of sectors of interest must be accompanied by a bid guarantee

The declaration of interest and the bid guarantee are submitted for evaluation by CEL

The approval of a declaration of sector of interest, accompanied by the offer guarantee, will initiate a cycle of the Permanent Offer

Stages and Duration of a Cycle

The schedules of the Open Acreage cycles starts with the approval of a declaration of interest submitted by a registered bidder accompanied by a bid guarantee.

The background is a light green color with several decorative, wavy green lines of varying thicknesses. One prominent line starts from the top right and curves down towards the bottom center. Another line starts from the bottom left and curves towards the center. A third, thinner line starts from the bottom left and curves towards the right side.

Technical Data

Technical Data

✓ Free Technical Data:

REATE: Program for the revitalization of E&P activity in onshore Areas

PROMAR: Program for the revitalization and incentive of production in offshore brown fields

✓ Technical Data Package

Collection of public data selected for the Open Acreage

Includes regional data from offshore sedimentary basins not covered by PROMAR

The screenshot displays the ANP website interface. At the top, there are logos for ANP, SGB (Serviço Geológico do Brasil), and the Ministry of Mines and Energy. Below the logos is a table with columns for 'Região', 'Tipo de Dados', and 'Link'. The table lists various data packages for different regions. A QR code is located in the bottom right corner of the page.

The screenshot displays the ANP website interface for the eBID (Pacotes de Dados) section. The background features an image of an offshore oil rig. The text 'eBID' and 'Pacotes de Dados' is prominently displayed. Below this, there are two buttons: 'Oferta Permanente de Concessão (OPC)' and 'Oferta Permanente de Partilha de Produção (OPP)'. A QR code is located in the bottom right corner of the page.

Technical Data

✓ Data Available in BDEP (Exploration and Production Database)

Access by individuals or legal entities:

Occasional requests

Signing of the BDEP Membership Agreement

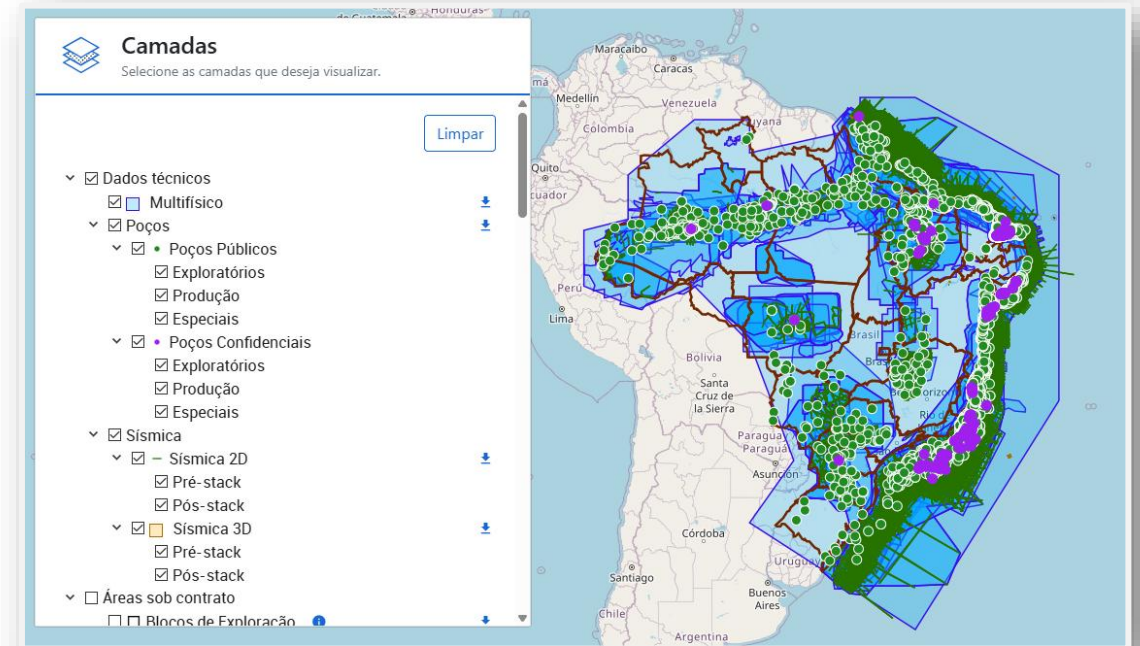

Regulated by ANP Resolution No. 889/2022

✓ Access Fees

Optional payment

Not linked to registration in the Permanent Offer

Does not restrict or oblige offers in the public session

#5

Modernization Agenda with B3

We Are Evolving Our Bidding Model

ANP and B3 partnering to deliver a more efficient, transparent and competitive process

Partnership with B³- Brazil's Leading Exchange

Regulation and awarding of E&P contracts in Brazil

Infrastructure and Auction

E&P OPPORTUNITIES

Areas Offered By ANP

GOVERNANCE & OVERSIGHT

Rules, transparency and compliance

MARKET PARTICIPATION

Broader access, more competition

DIGITAL BID PLATFORM

Key Benefits of the New Platform

Strong Governance

robust operational standards & trusted market practices

Greater Efficiency

digitized processes that reduce administrative complexity and transaction costs

Broad Accessibility

facilitating participation by domestic & international investors

Transparency

transparency, traceability & legal certainty

Flexibility & Resilience

capacity to combine digital and in-person formats according to the needs of each cycle

EVOLUTION WITH STABILITY AND CONFIDENCE

Regulatory Preservation

no impact on cycles expected for 2026

Careful staged implementation with industry participation

Institutional Dialogue

Consistent Improvement

Preserve what works & Strengthen what can be improved

#6

Final remarks

Final remarks

The Open Acreage is the preferred system for offering concession areas for E&P in Brazil and has distinct mechanisms compared to a conventional bidding round: it is necessary to pay attention to the rules

OPC: 450 blocks available + 45 in inclusion process to be concluded this month

PSA: 23 Blocks available – a new cycle may be opened at any time upon companies' initiative

Opportunities for companies of all sizes and profiles

Strategic modernization through partnership with B3

Implementation of a fully digital bidding platform

Transition to the new model with no impact on cycles expected for 2026

Phased rollout supported by continuous institutional dialogue with the industry

Information on the Open Acreage

The screenshot shows the ANP website's 'Open Acreage' page. At the top, there is a navigation bar with the 'gov.br' logo, 'Ministério de Minas e Energia', and various menu items like 'Government Agencies', 'Access to Information', 'Legislation', and 'Accessibility'. A search bar is also present. Below the navigation, the page title is 'Agência Nacional do Petróleo, Gás Natural e Biocombustíveis'. The main content area features the 'OPEN ACREAGE Brazil' logo, which includes a grid of orange squares. Below the logo, there is a section titled 'OIL AND GAS BIDDING ROUNDS' followed by several paragraphs of text explaining the Open Acreage system, its history, and the bidding process. At the bottom of the page, there are two buttons: 'Concession' and 'Production Sharing'.
