# 1 INTRODUÇÃO

## 1.1 Aspectos legais

A Lei nº 9.478/1997 dispõe sobre a política energética nacional e implementa outras medidas, em consonância com a Emenda Constitucional nº 9/1995, que flexibiliza a forma de execução do monopólio da União para as atividades de exploração e produção de petróleo e gás natural.

Essa lei criou o Conselho Nacional de Política Energética (CNPE) com a atribuição de formular políticas e diretrizes de energia destinadas a promover o aproveitamento racional dos recursos energéticos do País, em conformidade com o disposto na legislação aplicável e tendo como princípios a preservação do interesse nacional, a promoção do desenvolvimento sustentado, a ampliação do mercado de trabalho, a valorização dos recursos energéticos, a proteção ao meio ambiente, a promoção da conservação de energia, o incremento da utilização do gás natural, a promoção da livre concorrência, a atração de investimento na produção de energia e a ampliação da competitividade do País no mercado internacional.

A Lei nº 9.478/1997 também instituiu a Agência Nacional do Petróleo, Gás Natural e Biocombustíveis (ANP) como ente responsável pela regulação, contratação e fiscalização das atividades econômicas da indústria do petróleo, gás natural e biocombustíveis, cabendo-lhe, entre outras atribuições, a elaboração de editais e contratos e a realização de licitações para concessão dos direitos de exercício de atividades de exploração e produção de petróleo e gás natural, celebrando os contratos de concessão delas decorrentes e fiscalizando a sua execução.

A Lei nº 12.351/2010, nos termos do art. 65, delegou ao Poder Executivo o estabelecimento de políticas e medidas específicas visando ao aumento da participação de empresas de pequeno e médio porte nas atividades de exploração, desenvolvimento e produção de petróleo e gás natural.

O CNPE autorizou a ANP, por meio da Resolução nº 17/2017, publicada no Diário Oficial da União em 08 de junho de 2017, a licitar os campos devolvidos ou em processo de devolução, bem como os blocos exploratórios com descobertas que lhe sejam devolvidos, assim como ofertar áreas que já tenham sido objeto de autorizações de parte do CNPE em licitações anteriores, podendo a ANP conduzir ofertas permanentes desses campos e blocos, excluídos os localizados na área do pré-sal ou demais áreas estratégicas.

A ANP, no exercício da atribuição que lhe foi outorgada pelo art. 36 da Lei nº 9.478/1997, editou a Resolução ANP nº 18/2015, que estabelece procedimentos para a realização das

licitações para concessão das atividades de exploração ou reabilitação e produção de petróleo e gás natural.

Este edital define, exclusivamente, as normas que deverão ser obedecidas por todas as interessadas em participar da Oferta Permanente e foi elaborado de acordo com as disposições pertinentes, entre as quais a Lei nº 9.478/1997, a Lei nº 12.351/2010, a Resolução CNPE nº 17/2017 e a Resolução ANP nº 18/2015, que devem ser observadas.

Para a Oferta Permanente será constituída uma Comissão Especial de Licitação (CEL), composta por representantes da ANP e da sociedade civil, devidamente designada pela Diretoria Colegiada da ANP por meio de portaria.

## **1.2 Objetivos da Oferta Permanente**

Em consonância com o art. 4º da Resolução CNPE nº 17, de 08 de junho de 2017, a ANP fica autorizada a licitar os campos devolvidos ou em processo de devolução, bem como os blocos exploratórios com descobertas que lhe sejam devolvidos, assim como ofertar áreas que já tenham sido objeto de autorizações de parte do CNPE em licitações anteriores.

Nesse primeiro ciclo a ANP ofertará blocos com risco exploratório e áreas com acumulações marginais, áreas de concessão com descobertas conhecidas de petróleo e/ou gás natural, onde não houve produção ou a produção foi interrompida por falta de interesse econômico.

Os objetos da Oferta Permanente foram selecionados em bacias de diferentes ambientes e modelos exploratórios, com o objetivo de ampliar as reservas e a produção brasileira de petróleo e gás natural, ampliar o conhecimento das bacias sedimentares, descentralizar o investimento exploratório no País, fixar empresas nacionais e estrangeiras no Brasil, assim como oferecer oportunidades a pequenas e médias empresas, em consonância com o art. 65 da Lei nº 12.351/2010, dando continuidade à demanda por bens e serviços locais, à geração de empregos e à distribuição de renda.

## **1.3 Procedimento da Oferta Permanente**

O procedimento da Oferta Permanente é composto das seguintes etapas:

- a) publicação do pré-edital;
- b) realização da audiência pública, que poderá ser precedida de consulta pública;
- c) publicação do edital;
- d) inscrição e pagamento da taxa de participação;
- e) aporte de garantias de oferta;

- f) apresentação e julgamento de ofertas;
- g) qualificação das licitantes vencedoras da sessão pública de apresentação de ofertas;
- h) adjudicação do objeto e homologação da licitação;
- i) assinatura do contrato de concessão.

Após a publicação do pré-edital, as interessadas em participar da Oferta Permanente já poderão solicitar sua inscrição por meio do preenchimento do formulário eletrônico de inscrição, apresentação dos documentos de inscrição e pagamento da taxa de participação.

Após o julgamento da solicitação da inscrição pela CEL, as licitantes com inscrição aprovada, que pretendam apresentar oferta na sessão pública de apresentação de ofertas, deverão apresentar garantia de oferta acompanhada de declaração indicando os setores de interesse.

A aprovação da primeira garantia de oferta acompanhada de declaração de interesse iniciará o primeiro ciclo da Oferta Permanente.

### **1.3.1 Ciclos da Oferta Permanente**

Os ciclos da Oferta Permanente correspondem à realização das sessões públicas de apresentação de oferta para um ou mais setores que tiveram declaração de interesse, acompanhada de garantia de oferta, por uma determinada licitante inscrita. Tais ciclos serão iniciados com a divulgação das seguintes datas pela CEL:

- a) data de realização da sessão pública de apresentação de ofertas correspondente ao ciclo da Oferta Permanente iniciado;
- b) data-limite para inscrição e pagamento da taxa de participação pelas interessadas em participar da referida sessão pública, ainda não inscritas no processo da Oferta Permanente;
- c) data-limite para inclusão de novo(s) setor(es) no ciclo da Oferta Permanente iniciado, a partir da apresentação de garantias de oferta acompanhadas de declaração de interesse para esse(s) outro(s) setor(es);
- d) data-limite para apresentação de garantias de oferta acompanhadas de declaração de interesse para apresentar ofertas na referida sessão pública;
- e) datas relacionadas à qualificação das licitantes vencedoras, à adjudicação do objeto e homologação da licitação e à assinatura dos contratos de concessão.

Todas as licitantes inscritas poderão participar do ciclo da Oferta Permanente iniciado. As demais interessadas em participar do ciclo, ainda não inscritas no processo da Oferta Permanente, deverão observar a data-limite prevista na alínea (b).

As licitantes poderão apresentar garantias de oferta acompanhadas de declaração de interesse para quaisquer setores objetos da Oferta Permanente. Para apresentar oferta no ciclo da Oferta Permanente iniciado, deverá ser observada a data-limite prevista na alínea (c).

Na sessão pública de apresentação de ofertas, as licitantes apresentarão ofertas para blocos ou áreas de seu interesse segundo os critérios estabelecidos no edital.

Para blocos com risco exploratórios, o bônus de assinatura e o programa exploratório mínimo (PEM) serão os critérios de oferta para definir a licitante vencedora da sessão pública de apresentação de ofertas. Para áreas com acumulações marginais, o bônus de assinatura será o único critério de oferta.

As ofertas serão classificadas em ordem decrescente de nota ou bônus de assinatura, conforme o objeto licitado. Será declarada vencedora da sessão pública a licitante cuja oferta obtiver a maior nota final, conforme combinação de bônus de assinatura e PEM ofertados, no caso das licitações de blocos com risco exploratório, ou o maior valor de bônus de assinatura, no caso das licitações de áreas com acumulações marginais.

Após a sessão pública de apresentação de ofertas, as licitantes vencedoras serão submetidas à qualificação, que compreende a análise de documentação para comprovação da regularidade jurídica, fiscal e trabalhista, capacidade econômico-financeira e capacidade técnica.

A Diretoria Colegiada da ANP adjudicará o objeto às licitantes vencedoras qualificadas, convocando-as para assinarem os contratos de concessão, e homologará a licitação.

As licitantes vencedoras entregarão documentos previstos no edital e a assinatura dos contratos de concessão encerrará o respectivo ciclo da Oferta Permanente.

Caso a licitante vencedora da sessão pública de apresentação de ofertas não seja qualificada ou não assine o contrato de concessão, terá sua garantia de oferta executada e estará sujeita às penalidades previstas no edital. As demais licitantes classificadas serão convocadas para manifestarem interesse em honrar a oferta apresentada pela licitante vencedora.

As interessadas em participar do processo da Oferta Permanente poderão solicitar inscrição e apresentar garantias de oferta a qualquer momento. No entanto, para participar da sessão pública de apresentação de ofertas do ciclo da Oferta Permanente em curso, deverão ser respeitadas as datas-limites divulgadas pela CEL para inscrição, pagamento da taxa de participação e apresentação de garantia de oferta acompanhada de declaração de interesse.

As interessadas que solicitem inscrição ou que apresentem garantia de oferta acompanhada de declaração de interesse após essas datas-limites, somente poderão participar de sessões públicas de apresentação de ofertas de ciclos da Oferta Permanente subsequentes.

#### **1.4 Cronograma**

O cronograma indicativo da Oferta Permanente é apresentado na Tabela 1. A ANP se reserva o direito de modificá-lo ou suspendê-lo, dando a devida publicidade e preservando os prazos e os direitos das licitantes.

## **2.1 Modelos exploratórios**

Este edital contempla os seguintes modelos exploratórios:

- a) blocos e áreas em bacias maduras, com o objetivo de oferecer oportunidades e aumentar a participação de empresas de pequeno e médio porte nas atividades de exploração ou reabilitação e produção de petróleo e gás natural em bacias densamente exploradas, possibilitando a continuidade dessas atividades nas regiões onde exercem importante papel socioeconômico;
- b) blocos em bacias de novas fronteiras, com o objetivo de atrair investimentos para regiões ainda pouco conhecidas geologicamente ou com barreiras tecnológicas a serem vencidas, buscando a identificação de novas bacias produtoras;
- c) blocos em bacias de elevado potencial, com o objetivo de recompor e ampliar as reservas e a produção brasileira de petróleo e gás natural e o atendimento da crescente demanda interna.

## **2.2 Participações governamentais**

Para o exercício das atividades de exploração ou reabilitação e produção de petróleo e gás natural, as licitantes vencedoras ou afiliadas por elas indicadas deverão assinar contratos de concessão.

As concessionárias estarão sujeitas ao pagamento de tributos incidentes sobre a atividade, na forma da lei, de indenizações devidas por desapropriações ou servidões necessárias e de participações governamentais e de terceiros, compreendendo: bônus de assinatura; royalties; participação especial (prevista apenas nos contratos de concessão de blocos com risco exploratório); pagamento pela ocupação ou retenção de área; e pagamento aos proprietários da terra.

### **2.2.1 Bônus de assinatura**

O bônus de assinatura é definido por bloco ou área e os valores encontram-se estabelecidos nas Tabelas 24A e 24B, do Anexo XIII.

## 2.2.2 Royalties

Em consonância com o artigo 47, § 1º, da Lei nº 9.478/1997, tendo em conta os riscos geológicos, as expectativas de produção e outros fatores pertinentes, a ANP estabeleceu alíquotas de *royalties* para os setores ofertados, conforme Tabelas 3A e 3B.

### **2.2.3 Participação especial**

A participação especial será calculada trimestralmente e incidirá sobre a receita líquida da produção individual de cada campo. A alíquota a ser adotada será calculada com base nos volumes

produzidos, na localização da lavra (em terra ou na plataforma continental, em função da profundidade batimétrica) e no número de anos de produção (1º, 2º, 3º e 4º em diante), de acordo com disposições do Decreto nº 2.705/1998 e das portarias específicas da ANP.

#### **2.2.4 Pagamento pela ocupação ou retenção de área**

Os valores correspondentes ao pagamento pela ocupação ou retenção de área foram estabelecidos nas Tabelas 2A e 2B, em reais por km², em fevereiro 2018 e serão aplicáveis às fases de exploração ou reabilitação.

Os valores previstos no contrato de concessão serão pagos e reajustados anualmente, a partir da data de sua respectiva assinatura, pelo IGP-DI acumulado nos 12 meses antecedentes à data de cada reajuste, conforme previsto no art. 28 do Decreto n.º 2.705/1998. Tais valores serão acrescidos em 100% em caso de prorrogação da fase de exploração ou reabilitação, quando aplicável, e para a etapa de desenvolvimento. Para a fase de produção, os valores serão acrescidos em 900%.

#### **2.2.5 Pagamento aos proprietários da terra**

Os valores correspondentes ao pagamento aos proprietários da terra estão estabelecidos nos contratos de concessão em percentual variável da produção de petróleo e gás natural entre 0,5% (cinco décimos por cento) e 1% (um por cento), nos termos da legislação aplicável.

### **2.3 Compromisso de conteúdo local**

#### **2.3.1 Conteúdo local para blocos exploratórios**

Para blocos com risco exploratório, os percentuais de conteúdo local a serem cumpridos na fase de exploração e na etapa de desenvolvimento da produção encontram-se definidos na Tabela 4 e no contrato de concessão.

**Tabela 4 – Compromissos de conteúdo local a serem considerados na fase de exploração e na etapa de desenvolvimento da produção**

		Unidade Estacionária de Produção	25%

### **2.3.2 Conteúdo local para as áreas com acumulações marginais**

Para as áreas com acumulações marginais, o conteúdo local não será objeto de exigência contratual.

### 3 FORMA DE APRESENTAÇÃO DOS DOCUMENTOS

Os documentos solicitados neste edital deverão ser remetidos ao Escritório Central da ANP ou entregues no serviço de protocolo aos cuidados da Superintendência de Promoção de Licitações (SPL), respeitando os prazos definidos e divulgados pela Comissão Especial de Licitação (CEL).

É vedada a apresentação de documentos nos demais escritórios da ANP.

Os documentos serão recebidos de segunda à sexta-feira, das 9h às 18h, horário de Brasília/DF, no seguinte endereço:

Agência Nacional do Petróleo, Gás Natural e Biocombustíveis - ANP

Escritório Central

A/C: Superintendência de Promoção de Licitações

CEP: 20090-004

Os documentos deverão ser entregues em uma única via, em envelope contendo o nome da interessada e o endereço de sua sede.

Os documentos devem ser redigidos em língua portuguesa, impressos em papel A4, sem emendas, rasuras, borrões ou acréscimos e trechos apagados com corretivo, livres de espirais, identificados por título em sua primeira página, com todas as folhas do conjunto numeradas, contendo em cada uma delas o número sequencial e o total de páginas do conjunto.

Contudo, excetuando-se as garantias financeiras, serão aceitos os anexos deste edital produzidos:

- a) em duas colunas impressas na mesma folha, desde que uma dessas colunas reproduza integralmente o texto do respectivo anexo em língua portuguesa e, na outra coluna, o texto em idioma estrangeiro; ou
- b) em idioma estrangeiro, acompanhado de tradução juramentada cuja transcrição corresponda integralmente ao texto previsto no respectivo anexo, obedecendo às formalidades previstas desta seção.

Em caso de divergência entre a versão em língua portuguesa e a versão em idioma estrangeiro, prevalecerá a versão na língua portuguesa.

Todos os documentos produzidos pela interessada deverão ser datados e assinados pelo representante credenciado, na última folha, com o nome legível do signatário.

Somente serão aceitos documentos expedidos até 90 (noventa) dias corridos antes de sua entrega. Tal disposição não se aplica a documentos societários, às demonstrações financeiras, ao parecer de auditor independente e àqueles que possuam data de validade expressa.

A ANP poderá solicitar qualquer informação ou documento adicional que confira suporte à análise da documentação das licitantes e promover diligências que considere necessárias para esclarecer ou complementar a instrução do procedimento licitatório. A ANP poderá, ainda, solicitar o saneamento de não conformidades de caráter formal, que não afetem o conteúdo do documento, e de erros materiais.

O desatendimento de exigências meramente formais que não comprometam a aferição da qualificação do licitante, a compreensão do conteúdo de sua proposta ou o cronograma da licitação, não importará seu afastamento da licitação ou a invalidação do processo.

Nenhuma documentação submetida à ANP será devolvida, com exceção das garantias de oferta exoneradas, segundo as condições descritas na seção 6.6.

Cabe observar que:

- a) notariação é o reconhecimento de firma para documentos originais ou a autenticação de cópias, realizadas em cartório.

  - b2) a consularização no caso de o documento ter sido emitido em país que não seja signatário da Convenção da Apostila de Haia.
- c) tradução juramentada pública é a tradução de determinado documento redigido em idioma estrangeiro por tradutor público. A tradução juramentada deve abranger todo o texto escrito em idioma estrangeiro, inclusive eventuais inscrições lançadas no documento por notário local.

A ANP poderá disponibilizar um sistema para *upload* de documentos por meio digital, conforme instruções no sítio eletrônico <http://rodadas.anp.gov.br>.

### **3.1 Documentos expedidos no exterior**

Os documentos expedidos no exterior, para terem efeito no Brasil, deverão ser notariados e depois legalizados, e devidamente registrados no Cartório de Registro de Títulos e Documentos (RTD), conforme determinam os arts. 6º, 129 e 148 da Lei nº 6.015/1973.

Documentos redigidos em idioma estrangeiro deverão ser traduzidos para o português por tradutor juramentado e a tradução, que deverá ser feita obrigatoriamente no Brasil, registrada no RTD.

Caso o Brasil possua acordo de cooperação com outros países ou seja parte de tratado em que haja previsão de dispensa de legalização de alguns ou de todos os documentos aqui previstos, a interessada poderá solicitá-la, fundamentando a solicitação na legislação aplicável.

#### **3.1.1 Pessoas jurídicas estrangeiras**

Pessoas jurídicas estrangeiras poderão participar da Oferta Permanente, devendo para tanto cumprir os requisitos dispostos neste edital.

Caso não seja possível a apresentação de determinado documento exigido neste edital por questões legais do país em que a interessada estrangeira esteja constituída, ou por não ser o documento aplicável a tal interessada, esta deve cumprir o requisito editalício correspondente por meio da apresentação dos seguintes documentos:

- a) documento assinado por representante credenciado constando: (i) descrição dos motivos que impedem o cumprimento do requisito previsto no edital; (ii) requerimento para que a ANP aceite, como atendimento a tal requisito, documento encaminhado em lugar daquele previsto no instrumento editalício; e (iii) menção ao encaminhamento dos documentos previstos em (b) e (c), abaixo;
- b) documentos equivalentes visando a atender ao requisito previsto no edital, a serem apresentados em lugar daquele previsto no instrumento editalício;
- c) caso aplicável, cópia do dispositivo legal que impede o cumprimento do requisito previsto no edital.

Na hipótese da inexistência de documento equivalente a documento previsto neste edital e/ou de órgão no país de origem que o autentique, a interessada deverá, em lugar da exigência prevista na alínea (b), acima, apresentar declaração a esse respeito, devendo apresentar também os documentos previstos nas alíneas (a) e (c) acima.

Com base em pareceres técnicos e/ou jurídicos fundamentados, poderá ser indeferida a inscrição ou a qualificação de interessadas provenientes desses países, quando a documentação submetida não for suficiente para identificação dos reais controladores, observado o disposto na seção 4.2.3, e garantia dos interesses da União como titular dos direitos sobre a exploração e produção de petróleo e gás natural no Brasil.

### **3.2 Aproveitamento de documentos constantes do cadastro de empresas**

As interessadas poderão aproveitar documentos que tenham sido submetidos à ANP para fins de inscrição e qualificação em:

As interessadas deverão enviar requerimento, conforme modelo do ANEXO II, indicando os documentos a serem aproveitados.

Somente poderão ser aproveitados os documentos relacionados no ANEXO II e que estiverem dentro do prazo de validade. Os documentos cuja data de validade não esteja expressa somente serão aproveitados se tiverem sido submetidos à ANP até 1 (um) ano antes do requerimento. Será considerado para fins de aproveitamento o documento mais recentemente protocolado na ANP.

O prazo estipulado acima não se aplica aos atos societários, que poderão ser aproveitados enquanto vigentes, e à documentação para qualificação econômico-financeira.

O aproveitamento de documentos não implica na aprovação da inscrição ou da qualificação da interessada, podendo a ANP solicitar esclarecimentos e/ou documentos adicionais.

Uma qualificação obtida anteriormente não constitui garantia de obtenção de nova qualificação.

### **3.3 Divulgação de informações e sigilo por parte da ANP**

Os documentos referentes à licitação são públicos, à exceção dos classificados como sigilosos, nos termos da legislação aplicável. Será vedado o acesso a documentos que contenham informações de caráter pessoal e informações relativas à atividade empresarial cuja divulgação possa representar vantagem competitiva a outros agentes econômicos.

A interessada que tiver alguma objeção à publicidade das informações deverá manifestar-se através de pedido fundamentado à ANP, que decidirá sobre o acolhimento.

A interessada poderá solicitar a divulgação de seus contatos e das bacias de seu interesse no sítio eletrônico <http://rodadas.anp.gov.br> conforme modelo do ANEXO III.

Qualquer alteração nos documentos societários mencionados nas alíneas (a), (b) e (c), incluindo alteração no quadro de administradores, reestruturação societária, alteração ou transferência do controle societário, desde o momento da inscrição, deverá ser comunicada à ANP acompanhada da documentação correspondente.

#### **4.2.2 Nomeação de representantes credenciados**

A interessada deverá nomear representante credenciado perante a ANP por meio de procuração, nos termos do ANEXO VI, assinada por seus representantes legais com poderes para constituírem procuradores.

Os representantes legais que atuarão no procedimento licitatório ou assinarão os contratos de concessão também deverão ser nomeados como representantes credenciados por meio da procuração (ANEXO VI), ainda que tais representantes possuam poderes outorgados por meio dos documentos societários da licitante.

O representante credenciado será o representante da licitante em todas as fases da Oferta Permanente, inclusive na assinatura do contrato de concessão.

Caso a licitante pretenda alterar a relação de representantes credenciados ou seus dados, deverá comunicar à ANP e apresentar nova procuração (ANEXO VI), a qual revogará a procuração previamente apresentada.

Não será admitida alteração de representantes credenciados nos 5 (cinco) dias úteis que antecedam sessão pública de apresentação de ofertas e assinatura de contratos de concessão.

A licitante brasileira ou estrangeira que pretenda indicar afiliada para assinatura do contrato de concessão certificar-se-á de que a afiliada indicada apresentará procuração, nos termos do ANEXO VI, nomeando representante(s) para a assinatura do contrato de concessão, o que deverá ser feito, nos termos da seção 10.2.1, (b).

#### **4.2.3 Organograma**

Não será admitida a participação de licitantes: (i) controladas por ações ao portador, sem identificação explícita de controle; ou (ii) cuja própria constituição ou de pessoa jurídica integrante de seu grupo societário impeça ou dificulte a identificação dos controladores com exceção, neste caso, das Entidades Fechadas de Previdência Complementar, dos Fundos de Investimento e dos Fundos de Investimento em Participações (FIPs), para os quais não se faz necessária a identificação dos controladores.

Não será admitida, sob qualquer justificativa, a alegação de aplicação da lei do país de origem da licitante visando a manter sigilo sobre seu controle acionário.

Com relação à carta de crédito e ao seguro garantia, deverá ainda ser observado o seguinte:

- a) As instituições emissoras não podem estar inadimplentes com a obrigação de indenizar a ANP por garantias já apresentadas, nem estar sob regime de direção fiscal, intervenção e liquidação extrajudicial. A ANP lançará no sítio eletrônico <http://rodadas.anp.gov.br> a lista das instituições financeiras inadimplentes com a obrigação de indenizar a ANP e que, portanto, não serão admitidas como garantidoras.
- b) O local de execução das garantias deve ser exclusivamente a cidade do Rio de Janeiro. Caso não possua filial nessa cidade, o emissor da garantia deve designar um representante para tal finalidade, cabendo-lhe comunicar imediatamente à ANP eventual alteração desse representante;
- c) Deverão estar acompanhadas dos documentos comprobatórios da condição de representantes legais do emissor: (i) documentos societários relativos à sociedade empresária que presta a garantia, discriminados na seção 4.2.1, alíneas (a), (b) e (c); (ii) procuração para os representantes legais que assinam as garantias, caso aplicável; e (iii) cópias dos documentos de identificação (CPF e documento de identidade) dos representantes referidos no item (ii); e
- d) As garantias eletrônicas assinadas digitalmente mediante certificado digital ICP-Brasil estão dispensadas da apresentação dos documentos comprobatórios da condição de representantes legais do emissor, desde que seja possível comprovar tal condição no sítio eletrônico da instituição emissora da garantia.

Para a apresentação de garantias de oferta na modalidade depósito caução, a licitante (caucionária) deverá abrir uma ou mais contas caução em qualquer agência da Caixa Econômica Federal (CEF), utilizando o formulário “Recibo de Caução” (Modelo nº 37.035-5, disponível no ANEXO XII).

A licitante deverá ser titular da conta caução, tendo como favorecido a Agência Nacional de Petróleo, Gás Natural e Biocombustíveis - ANP (CNPJ 02.313.673/0002-08).

Deverão ser apresentados o comprovante de depósito, bem como a via original do formulário “Recibo de Caução” devidamente preenchido e assinado. Caso o depósito seja efetuado em cheque, deverá ser apresentado também o extrato da conta caução comprovando a compensação do cheque.

O depósito caução em garantia é disciplinado pelo Decreto-Lei nº 1.737/1979 e pelo Decreto nº 93.872/1986. Os critérios, condições e índices de correção/atualização do valor depositado na conta caução são definidos pela CEF e estão estipuladas no formulário “Recibo de Caução”.

## **6.5 Execução da garantia de oferta**

Por determinação expressa da ANP, a garantia de oferta será executada no valor correspondente ao bloco ou área objeto da oferta, nas seguintes hipóteses:

- a) a licitante que, isoladamente, tenha vencido a sessão pública de apresentação de ofertas, não obtiver qualificação na categoria mínima exigida para o setor onde se localizam os blocos ou áreas objeto da oferta;
- b) a licitante remanescente que, convocada pela ANP, manifestar interesse em honrar a oferta apresentada pela vencedora e não obtiver qualificação na categoria mínima exigida para o setor onde se localizam os blocos ou áreas objeto da oferta;
- c) no caso de consórcio ter vencido a sessão pública de apresentação de ofertas, uma ou mais consorciadas não obtiverem qualificação na categoria mínima exigida para o setor onde se localizam os blocos ou áreas objeto da oferta e as demais consorciadas não assumirem as responsabilidades das licitantes não qualificadas;
- d) no caso de consórcio remanescente que, convocado pela ANP, manifestar interesse em honrar a oferta apresentada pela vencedora e uma ou mais consorciadas não obtiverem qualificação na categoria mínima exigida para o setor onde se localizam os blocos ou áreas objeto da oferta e as demais consorciadas não assumirem as responsabilidades das licitantes não qualificadas;
- e) a licitante que, isoladamente, tenha vencido a licitação, ou uma afiliada por esta indicada, deixar de assinar o contrato de concessão no prazo definido pela ANP;
- f) no caso de consórcio ter vencido a licitação, nenhuma das consorciadas, ou suas afiliadas, assinarem o contrato de concessão no prazo definido pela ANP;
- g) no caso de não assinatura do contrato de concessão pela vencedora da licitação, a licitante ou consórcio que, convocada pela ANP, manifestar interesse em honrar a oferta apresentada pela vencedora, deixar de assinar o contrato de concessão no prazo definido pela ANP; e

- h) nos casos de desclassificação previstos nas alíneas (a), (b), (c), (d), (e) e (f) da seção 1.5, exceto nas ofertas em consórcio em que as demais consorciadas assumam as responsabilidades das licitantes desclassificadas.

Alternativamente, a licitante poderá efetuar o pagamento correspondente diretamente à União, com recolhimento à União por meio de pagamento de GRU – Guia de Recolhimento à União, conforme instruções contidas no sítio eletrônico <http://rodadas.anp.gov.br>. Em ambos os casos, referente à execução da garantia de oferta ou ao pagamento direto à União, a licitante não estará isenta de eventual aplicação das penalidades previstas na seção 11 e na legislação aplicável.

Na modalidade caução em dinheiro, a execução da garantia de oferta será realizada mediante saque do valor correspondente à garantia para bloco ou área objeto da oferta. A atualização monetária cabível será restituída ao depositante caso não haja incidência da multa prevista na seção 11. Caso haja incidência de multa, o valor decorrente da atualização monetária será retido e abatido do valor total da multa devida.

## **6.6 Exoneração e devolução da garantia de oferta**

A garantia de oferta será exonerada nas seguintes condições:

- a) a todas as licitantes, no caso de revogação ou anulação da licitação, em até 15 (quinze) dias após a publicação do ato no DOU;
- b) garantia que não estiver vinculada a oferta válida, em até 15 (quinze) dias após a realização da sessão pública;
- c) a todas as licitantes que apresentaram oferta válida, em até 15 (quinze) dias após a assinatura do contrato de concessão.

Após exoneração, as garantias de oferta serão devolvidas mediante agendamento prévio pela ANP. Nos casos de garantia de oferta apresentada na modalidade depósito caução, a ANP fornecerá documentação autorizando a liberação da totalidade dos recursos disponíveis.

As garantias de oferta não retiradas pelas licitantes serão arquivadas pela ANP até o fim de seu prazo de validade, após o qual poderão ser descartadas.

## **7 APRESENTAÇÃO DE OFERTAS**

### **7.1 Programa e local da licitação**

As sessões públicas de apresentação de ofertas serão realizadas em data e local a serem divulgados pela CEL.

O número de lugares disponíveis nas sessões públicas estará sujeito à capacidade de lotação do auditório. Serão destinados locais específicos para os representantes credenciados das licitantes, imprensa e público em geral.

### **7.2 Composição das ofertas**

As ofertas para blocos com risco exploratório serão compostas pelo valor do bônus de assinatura e pelo programa exploratório mínimo (PEM).

As ofertas para as áreas com acumulações marginais serão compostas exclusivamente pelo valor do bônus de assinatura.

#### **7.2.1 Bônus de assinatura**

O bônus de assinatura, critério de ofertas para blocos com risco exploratório e áreas com acumulações marginais, corresponde ao montante, em Real (R\$), ofertado para obtenção da concessão do bloco ou área objeto da oferta e deverá ser pago pela licitante vencedora no prazo estabelecido pela ANP, como condição para a assinatura do contrato de concessão.

Os bônus de assinatura ofertados para blocos com risco exploratório e para áreas com acumulações marginais não poderão ser inferiores aos valores mínimos estabelecidos nas Tabelas 24A e 24B do ANEXO XIII, respectivamente.

Qualquer oferta que apresente bônus de assinatura inferior ao valor mínimo definido para o bloco ou área em questão será considerada inválida.

#### **7.2.2 Programa exploratório mínimo (PEM)**

O programa exploratório mínimo, critério de oferta exclusivo para blocos com risco exploratório, corresponde ao conjunto de atividades exploratórias a ser executado pela

concessionária e é expresso em unidades de trabalho (UTs). O programa exploratório mínimo ofertado deverá ser obrigatoriamente cumprido durante a fase de exploração.

As atividades exploratórias aceitas e a relação de equivalência das UTs com os respectivos valores da garantia financeira do programa exploratório mínimo encontram-se na Tabela 25 do ANEXO XIV.

Somente serão aceitas as ofertas de programa exploratório mínimo expressas em números inteiros de UTs e em valor igual ou superior ao mínimo estabelecido para cada bloco, conforme relacionado na Tabela 24A do ANEXO XIII.

### **7.3 Procedimento de apresentação das ofertas**

O procedimento de apresentação de ofertas e a determinação da oferta vencedora serão públicos, efetuados de maneira transparente e guiados pelas seguintes regras:

- a) as ofertas podem ser apresentadas por qualquer licitante cuja inscrição tenha sido aprovada pela CEL, que tenha efetuado o pagamento da taxa de participação e apresentado garantia de oferta acompanhada de declaração de interesse;
- b) as licitantes deverão observar os requisitos de qualificação previstos no edital para o setor onde se localiza o bloco ou a área objeto da oferta;
- c) cada oferta deverá estar associada a uma garantia de oferta válida. O envelope contendo as ofertas que excederem o valor total das garantias apresentadas será invalidado em sua totalidade;
- d) as ofertas deverão ser elaboradas em programa de informática específico desenvolvido pela ANP, que será disponibilizado no sítio eletrônico <http://rodadas.anp.gov.br>;
- e) cada oferta gerada pelo programa de informática possui um Código Identificador da oferta (ID) único. Todos os formulários impressos referentes a mesma oferta devem conter o mesmo código ID;
- f) os formulários gerados pelo programa de informática, acompanhados da versão digital da oferta, deverão constar de envelope lacrado, identificado com capa e assinado pelo representante credenciado da licitante;
- g) a oferta, em meio digital, será homologada com a versão impressa, que é a única versão oficial. Havendo divergência entre a parte escrita e a digital, ou problemas técnicos na versão digital, valerá o documento impresso;
- h) as ofertas deverão ser elaboradas por bloco ou área;
- i) as ofertas para um mesmo setor deverão constar de um único envelope;

- j) caso a licitante deseje apresentar ofertas em consórcios diferentes para blocos ou áreas distintos, localizados no mesmo setor, as ofertas deverão ser apresentadas em envelopes separados;
- k) nenhuma licitante poderá fazer mais de uma oferta para um mesmo bloco ou área, seja individualmente ou em consórcio, conforme estabelecido no art. 38, IV, da Lei nº 9.478/1997. Todas as ofertas para um mesmo bloco ou área que contrariem a presente regra serão invalidadas pela CEL;
- l) a limitação do item acima é estendida para licitantes integrantes de um mesmo grupo societário<sup>1</sup> e para licitantes que tenham administradores, diretores, sócios ou representantes credenciados comuns, exceto se demonstrado que não agem representando interesse societário em comum. As licitantes que porventura se enquadrem nestas situações poderão solicitar fundamentadamente à CEL que decida se poderão fazer ofertas para os mesmos blocos ou áreas, levando em conta a promoção da competitividade do certame;
- m) a licitante ou outras licitantes do mesmo grupo societário poderão participar de outros consórcios para fazer ofertas para blocos ou áreas diferentes;
- n) a licitação será aberta conforme sequência e procedimento divulgados pela CEL;
- o) todos os envelopes que ingressarem na área de ofertas deverão estar lacrados e ser apresentados à CEL;
- p) os envelopes deverão ser apresentados à CEL durante a sessão pública de apresentação de ofertas pelos representantes credenciados das licitantes, com poderes outorgados por procuração, conforme modelo do ANEXO VI, portando documento de identificação oficial com foto;
- q) a CEL verificará o preenchimento dos envelopes podendo, a seu critério, solicitar correções pertinentes;
- r) os envelopes contendo as ofertas serão abertos e analisados pela CEL;
- s) somente serão aceitas as ofertas realizadas exclusivamente segundo as instruções deste edital. Ofertas realizadas em desacordo com as instruções deste edital serão invalidadas pela CEL.

---

<sup>1</sup> A seção 4.2.3 traz o conceito de grupo societário para fins deste edital.

### **7.3.1 Apresentação de ofertas em consórcio**

Para participar da Oferta Permanente, cada licitante integrante do consórcio terá que se inscrever individualmente. Será admitida a apresentação de ofertas por licitantes em consórcios que atendam aos seguintes requisitos:

- a) a licitante indicada como operadora do consórcio deverá atender às exigências para qualificação na categoria mínima exigida para o setor onde se localizam os blocos ou áreas objetos de oferta;
- b) as demais consorciadas deverão atender, no mínimo, às exigências para qualificação e apresentação de ofertas na condição de não-operadora definidas na seção 8.3.2.1;
- c) a licitante que pretenda se qualificar como não-operadora somente poderá apresentar ofertas em consórcio;
- d) a operadora não poderá ter uma participação inferior a 30% (trinta por cento) no consórcio;
- e) cada uma das demais consorciadas deverá ter uma participação mínima de 5% (cinco por cento) no consórcio;
- f) as licitantes deverão firmar o compromisso de constituição do consórcio, subscrito pelos consorciadas, com a indicação da licitante operadora, responsável pelo consórcio e pela condução das operações, conforme modelo de capa de envelope descrito na seção 7.3.

### **7.4 Critério de apuração das ofertas**

A CEL julgará as ofertas em conformidade com os critérios estabelecidos neste edital e na Lei n.º 9.478/1997, invalidando as ofertas que não satisfizerem as exigências pré-fixadas.

O julgamento das ofertas será feito individualmente por bloco ou área. Para blocos com risco exploratório a apuração será feita mediante a atribuição de pontos e pesos, enquanto para áreas com acumulações marginais será feita considerando os valores dos bônus de assinatura ofertados.

#### **7.4.1 Blocos com risco exploratório**

O bônus de assinatura terá peso de 80% (oitenta por cento) e o programa exploratório mínimo (PEM) de 20% (vinte por cento) no cálculo da nota final a ser atribuída a licitante ou consórcio concorrente.

Assim, para um máximo de 100 (cem) pontos, a nota final será composta por 2 (duas) parcelas, calculadas como se segue:

**Tabela 8 – Fórmulas para determinação dos pontos das ofertas - blocos com risco exploratório**

$\text{NOTA } 1 = 80 \times \left( \frac{\text{Bônus de Assinatura ofertado (R\$)}}{\text{Maior Bônus de Assinatura ofertado (R\$)}} \right)$
$\text{NOTA } 2 = 20 \times \left( \frac{\text{PEM ofertado em UTs}}{\text{Maior PEM ofertado em UTs}} \right)$
$\text{NOTA FINAL} = \text{NOTA } 1 + \text{NOTA } 2$

As notas 1 e 2 serão calculadas com 5 (cinco) casas decimais, desprezando-se os valores a partir da sexta casa decimal. A nota final será calculada através da soma das notas 1 e 2 e será arredondada para 4 (quatro) casas decimais. Quando a quinta casa decimal da nota final for igual ou maior que 5 (cinco), a quarta casa decimal será arredondada para cima.

As ofertas serão classificadas segundo a ordem decrescente de notas, sendo declarada vencedora a licitante cuja oferta obtiver a maior nota final.

#### **7.4.2 Áreas com acumulações marginais**

As ofertas serão classificadas em ordem decrescente dos valores de bônus de assinatura ofertados, respeitando os valores mínimos definidos na Tabela 24B.

Será declarada vencedora da sessão pública de apresentação de ofertas a licitante que ofertar o maior valor de bônus de assinatura.

#### **7.4.3 Regras de desempate**

Quando duas ou mais licitantes obtiverem a mesma nota em um mesmo bloco ou ofertarem o mesmo valor de bônus de assinatura para a mesma área com acumulação marginal, e não for aplicável o disposto no artigo 42 da Lei n.º 9.478/1997, será dado novo prazo para que as licitantes empatadas apresentem novas ofertas. As novas ofertas não poderão ser inferiores às ofertas precedentes, tanto no que se refere ao bônus de assinatura, como ao programa exploratório mínimo.

Os horários para a apresentação das novas ofertas serão determinados pela CEL. Caso essas licitantes não apresentem novas ofertas ou se verifique novo empate, será utilizado o sorteio como critério de desempate, realizado em ato público, na mesma sessão, em hora designada pela CEL.

## 8 QUALIFICAÇÃO

A qualificação compreende a análise de documentação para comprovação da regularidade jurídica, fiscal e trabalhista, capacidade econômico-financeira e capacidade técnica das licitantes.

A ANP analisará apenas a documentação das licitantes vencedoras da sessão pública de apresentação de ofertas.

As licitantes serão qualificadas como operadoras ou como não-operadoras, conforme os critérios estabelecidos nesta seção, e serão classificadas nos seguintes níveis:

- a) **operadora A** – qualificada para operar em blocos situados em águas ultraprofundas, águas profundas, águas rasas, em terra e em áreas com acumulações marginais;
- b) **operadora B** – qualificada para operar em blocos situados em águas rasas, em terra e em áreas com acumulações marginais;
- c) **operadora C** – qualificada para operar somente em blocos situados em terra e em áreas com acumulações marginais;
- d) **operadora D** – qualificada para operar somente em áreas com acumulações marginais;
- e) **não operadora** – qualificada para atuar em consórcio, observado o disposto na seção 8.3.2.1.

A ANP fará o enquadramento das licitantes no maior nível de qualificação possível, de acordo com a análise da documentação apresentada.

Caso a licitante obtenha nível de qualificação técnica diferente do nível de qualificação econômico-financeira, será considerada a qualificação de menor nível.

Após o encerramento da sessão pública de apresentação de ofertas, as licitantes vencedoras deverão entregar os documentos para qualificação listados nesta seção nos prazos estabelecidos pela ANP.

Observadas as formalidades previstas na seção 3, a licitante vencedora deve apresentar apenas um conjunto de documentos, independentemente do número de blocos ou áreas por ela arrematados.

No caso de consórcio, a documentação de qualificação deverá ser apresentada individualmente por cada uma das consorciadas. A licitante indicada como operadora do consórcio deverá obter qualificação na categoria mínima exigida para o setor, conforme o caso, onde se localizam os blocos ou áreas objeto de oferta.

A ANP poderá solicitar quaisquer informações e documentos adicionais para subsidiar a qualificação.

As informações prestadas pelas licitantes para fins de qualificação poderão ser verificadas pela ANP por meio de vistorias previamente agendadas.

As licitantes deverão manter as condições de qualificação até a assinatura do contrato de concessão sob pena de desclassificação da licitação.

### **8.1 Qualificação jurídica e comprovação de regularidade fiscal e trabalhista**

Para a obtenção da qualificação jurídica e comprovação de regularidade fiscal e trabalhista, além dos documentos já apresentados para inscrição previstos na seção 4.2, as licitantes deverão apresentar os documentos listados nesta seção, que serão avaliados segundo os critérios definidos neste edital:

- a) documentos societários listados na seção 4.2.1, que tenham sofrido qualquer alteração, desde sua mais recente apresentação à ANP;
- b) declaração de ausência de impedimentos para assinatura do contrato de concessão, nos termos do ANEXO XV, atestando não haver nenhum fato que impeça a assinatura ou a execução do contrato de concessão;
- c) declaração sobre pendências legais ou judiciais relevantes, nos termos do ANEXO XVI, atestando a existência ou inexistência de pendências legais ou judiciais relevantes, incluindo aquelas que poderão acarretar insolvência, recuperação judicial, falência, ou qualquer outro evento que possa afetar a idoneidade financeira da licitante (caso haja pendências relevantes, estas devem ser discriminadas);
- d) comprovação de regularidade fiscal e trabalhista, por meio da apresentação dos seguintes documentos:
  - d.1) prova de inscrição no CNPJ;
  - d.2) Certidão Conjunta Negativa de Débitos ou Positiva com efeito de Negativa relativa a Tributos Federais e à Dívida Ativa da União, a cargo da Procuradoria-Geral da Fazenda Nacional (PGFN), abrangendo todos os créditos tributários federais administrados pela RFB e PGFN;
  - d.3) Certificado de Regularidade do FGTS (CRF);
  - d.4) Certidão Negativa de Débitos Trabalhistas, ou positiva com efeito de negativa a cargo da Justiça do Trabalho.

Os FIPs deverão apresentar apenas os documentos exigidos nas alíneas (c) e (d) acima, os quais serão apresentados em nome do Administrador do FIP. Em caso de alteração, os documentos listados na seção 4.2.7, alíneas (c) e (f), deverão ser reapresentados.

As licitantes que apresentarem registro cadastral e situação regular no Sistema de Cadastramento Unificado de Fornecedores (SICAF) ficarão dispensadas de apresentar os documentos listados na alínea (d), exceto a Certidão Negativa de Débitos Trabalhistas, ou positiva com efeito de negativa a cargo da Justiça do Trabalho.

A existência de registro da licitante como devedora constitui fato impeditivo da qualificação, salvo se a registrada comprovar que tenha ajuizado demanda com objetivo de discutir a natureza da obrigação, ou do seu valor, e oferecido garantia suficiente ao juízo, na forma da lei; ou esteja suspensa a exigibilidade do crédito objeto do registro.

As licitantes estrangeiras não serão obrigadas a apresentar os documentos relativos à comprovação da regularidade fiscal e trabalhista.

## **8.2 Qualificação técnica**

A licitante será qualificada tecnicamente como operadora A, B, C, D ou não operadora.

As informações técnicas devem ser prestadas de acordo com um dos seguintes modelos de sumários técnicos, alternativamente:

- a) qualificação técnica por experiência da licitante ou do seu grupo societário: sumário técnico 01 (ANEXO XVII);
- b) qualificação técnica por experiência do quadro técnico da licitante: sumário técnico 02 A (ANEXO XVIII);
- c) qualificação técnica por experiência do quadro técnico da licitante - operadora D: sumário técnico 02 B (ANEXO XIX);
- d) qualificação técnica como não operadora: sumário técnico 03 (ANEXO XX);
- e) qualificação técnica para licitante que já atua no Brasil: sumário técnico 04 (ANEXO XXI).

### **8.2.1 Qualificação técnica como operadora A, B ou C**

A qualificação técnica como operadora poderá ser obtida a partir da experiência da licitante ou do seu grupo societário (seção 8.2.1.1) ou, alternativamente, a partir da experiência dos integrantes do seu quadro técnico, no Brasil e/ou no exterior (seção 8.2.1.2).

A qualificação pela experiência da licitante ou do seu grupo societário será baseada em:

- a) experiência em atividades de E&P (seção 8.2.1.1.1);
- b) tempo de experiência em atividades de E&P (seção 8.2.1.1.2);
- c) volume de produção dos últimos 5 (cinco) anos (seção 8.2.1.1.3);
- d) montante de investimentos realizados em exploração nos últimos 5 (cinco) anos (seção 8.2.1.1.4);
- e) aspectos relacionados à Segurança, Meio Ambiente e Saúde (SMS) (seção 8.2.1.1.5).

A qualificação pela experiência dos integrantes do quadro técnico da licitante será baseada na experiência dos profissionais integrantes do seu quadro técnico em atividades de E&P.

Caso a licitante se qualifique através da experiência dos integrantes de seu quadro técnico, a qualificação máxima possível será como operadora B.

Em nenhuma hipótese será admitida a soma da experiência da licitante com a experiência dos integrantes do quadro técnico.

Para efeitos de enquadramento da licitante em um dos níveis de qualificação como operadora (A, B ou C), a ANP atribuirá, cumulativamente, pontuação para cada atividade desenvolvida.

Caso a licitante esteja desenvolvendo cumulativamente, no mesmo ambiente, atividades como operadora, não operadora ou prestadora de serviço, prevalecerá somente a maior pontuação.

#### **8.2.1.1 Qualificação pela experiência da licitante ou do seu grupo societário**

A experiência da licitante ou do seu grupo societário no Brasil e/ou no exterior deverá ser informada, conforme modelo de sumário técnico 01, do ANEXO XVII.

#### 8.2.1.1.4 Pontuação pelo montante de investimentos em atividades exploratórias

A licitante que informar a realização de investimentos em atividades de exploração, na condição de operadora, receberá pontuação em função do montante de investimentos e do ambiente operacional, de acordo com o estabelecido na Tabela 12.

Será considerado o montante de investimentos dos últimos 5 (cinco) anos referente à participação da licitante na condição de operadora. Caso o valor do investimento esteja referenciado em dólar americano (US\$), deverá ser utilizada para conversão a taxa média de câmbio (Ptax-venda) do ano em que foi realizado. Todos os investimentos realizados devem ser trazidos a valor

presente pelo IGP-M acumulado até o mês anterior ao da realização da sessão pública de apresentação de ofertas.

A experiência dos integrantes do quadro técnico será avaliada e receberá uma pontuação, em função do local de atuação nas atividades de E&P, considerando também a experiência de operação em ambientes adversos e áreas ambientalmente sensíveis, conforme especificado na Tabela 13.

**Tabela 13 - Pontuação em função da experiência do quadro técnico**

## **8.5 Resultado da qualificação**

O resultado da qualificação das licitantes vencedoras da sessão pública de apresentação de ofertas, julgado pela CEL, será publicado no DOU e no sítio eletrônico <http://rodadas.anp.gov.br>.

O resultado da qualificação será informado às licitantes, individualmente, por meio de mensagem eletrônica.

## **8.6 Procedimento para o caso de não qualificação da licitante vencedora da sessão pública de apresentação de ofertas**

### **8.6.1 Licitantes que apresentaram oferta isoladamente**

Caso a licitante vencedora da sessão pública de apresentação de ofertas não seja qualificada no nível exigido para o setor onde se localiza o bloco ou a área objeto da oferta, a licitante será desclassificada, sendo observado o seguinte procedimento de convocação das licitantes remanescentes que apresentaram oferta para o mesmo bloco ou área:

- a) as licitantes remanescentes que tenham apresentado oferta válida serão convocadas, mediante chamada única, para, no prazo definido pela CEL, manifestarem seu interesse em honrar a melhor oferta da sessão pública;
- b) as licitantes que manifestarem interesse deverão apresentar, no prazo fixado pela CEL, os documentos de qualificação previstos na seção 8 e garantias de ofertas válidas, caso necessário;
- c) a qualificação será realizada na ordem de classificação das ofertas prevista na seção 7.4, até que uma das licitantes atenda aos requisitos de qualificação;
- d) caso nenhuma das licitantes manifeste interesse em honrar a melhor oferta da sessão pública ou as que manifestarem não sejam qualificadas, será considerada nova vencedora da sessão pública de apresentação de ofertas, no respectivo bloco ou área, a licitante que apresentou a próxima oferta mais bem classificada;
- e) a nova licitante vencedora será convocada para apresentar documentos de qualificação e garantias de ofertas válidas, caso necessário;
- f) caso a licitante mencionada na alínea (e) não seja qualificada, o procedimento será reiniciado a partir da alínea (a), até que uma das licitantes atenda os requisitos de qualificação.

A licitante que não obtiver qualificação no nível exigido para o setor onde se localiza o bloco ou a área objeto da oferta terá sua garantia de oferta executada e financeiramente liquidada nos

termos da seção 6.5, sem prejuízo de eventual aplicação das penalidades previstas na seção 11 e na legislação aplicável.

Para os blocos ou áreas em que não houver licitantes remanescentes, a CEL declarará a licitação encerrada.

#### **8.6.2 Licitantes que apresentaram oferta em consórcio**

Caso a licitante não qualificada seja integrante de consórcio vencedor, as demais consorciadas serão convocadas para, no prazo definido pela CEL, manifestarem interesse em assumir as responsabilidades da licitante não qualificada, sem prejuízo de eventual aplicação das penalidades previstas na seção 11 e na legislação aplicável.

Para tanto, é necessário que o consórcio mantenha pelo menos uma consorciada qualificada no nível mínimo exigido para o setor onde se localiza o bloco ou a área objeto da oferta, para atuar na condição de operadora da concessão. Caso necessário, as demais integrantes do consórcio serão convocadas para apresentar nova documentação de qualificação com o fim de assumir a operação do consórcio.

A convocação das demais consorciadas precederá a convocação prevista na seção 8.6.1.

Em nenhuma circunstância será permitida a entrada de nova integrante no consórcio vencedor antes da assinatura do contrato de concessão.

Caso nenhuma das licitantes integrantes do consórcio assuma as responsabilidades da licitante não qualificada, a garantia de oferta será executada e financeiramente liquidada nos termos da seção 6.5, sem prejuízo de eventual aplicação das penalidades previstas na seção 11 e na legislação aplicável, e será aplicado o disposto na seção 8.6.1.

## **9 ADJUDICAÇÃO DO OBJETO E HOMOLOGAÇÃO DA LICITAÇÃO**

Para cada ciclo da Oferta Permanente, a CEL elaborará relatório circunstanciado do procedimento licitatório, do qual constará o resultado da licitação, proposta de adjudicação do objeto da licitação, de acordo com os critérios utilizados no julgamento, bem como a relação das ofertas invalidadas e suas respectivas razões.

A Diretoria Colegiada da ANP analisará o relatório e decidirá sobre a adjudicação do objeto da licitação, cujo resultado será publicado no DOU, no sítio eletrônico <http://rodadas.anp.gov.br> e, a critério da ANP, em jornais de grande circulação.

A Diretoria Colegiada da ANP homologará a licitação e convocará as licitantes vencedoras qualificadas para a assinatura dos contratos de concessão, nos termos da seção 10.

## **10 ASSINATURA DO CONTRATO DE CONCESSÃO**

As licitantes vencedoras convocadas, nos termos da seção 10, ou as afiliadas por elas indicadas celebrarão contratos de concessão com a ANP para a exploração ou reabilitação e produção de petróleo e gás natural.

Para assinatura dos contratos de concessão, as licitantes ou as afiliadas por elas indicadas deverão apresentar documentos e garantias, bem como comprovar o pagamento do bônus de assinatura, conforme previsto nesta seção, nos prazos definidos pela ANP para cada ciclo da Oferta Permanente.

Será celebrado um contrato de concessão para cada área ou bloco arrematado, conforme o caso. A ANP publicará os extratos dos contratos de concessão assinados no DOU.

### **10.1 Documentos para assinatura dos contratos de concessão**

Os documentos para assinatura dos contratos de concessão devem ser apresentados em uma única via, independentemente da quantidade de blocos ou áreas arrematados, exceto os documentos discriminados nas seções 10.1.2, 10.1.3, 10.1.4, 10.1.5 e 10.1.6, quando aplicáveis, os quais devem ser apresentados para cada contrato a ser assinado.

A Tabela 19, apresentada ao final desta seção, consolida a relação dos documentos necessários para assinatura dos contratos de concessão.

#### **10.1.1 Informações da signatária**

A licitante vencedora deverá apresentar as informações constantes do ANEXO XXIII.

#### **10.1.2 Garantia financeira**

As garantias financeiras deverão ser apresentadas, conforme modelos dos ANEXOS XXIV, XXV, XXVI (partes 1 e 2) e XII, em uma das seguintes modalidades: i) carta de crédito; (ii) seguro garantia; (iii) penhor de petróleo e gás natural; e (iv) depósito caução.

Quando a licitante vencedora for um consórcio, as garantias apresentadas deverão ser acompanhadas de carta subscrita por todas as consorciadas, nos termos do ANEXO XXVII, expressando plena ciência do Contrato de Concessão e de que as obrigações do programa

exploratório mínimo e do programa de trabalho inicial são indivisíveis, cabendo à cada consorciada, solidariamente, a obrigação de ressarcimento em caso de seu descumprimento.

As garantias financeiras nas modalidades carta de crédito e seguro garantia deverão ser acompanhadas dos seguintes documentos comprobatórios da condição de representantes legais do emissor:

- a) Documentos societários relativos à sociedade empresária que prestará a garantia, discriminados nas alíneas (a), (b) e (c) da seção 4.2.1;
- b) Procuração para os representantes que assinarão as garantias, caso aplicável; e
- c) Documentos de identificação (CPF e documento de identidade) dos representantes referidos na alínea (b).

As garantias eletrônicas assinadas digitalmente mediante certificado digital ICP-Brasil estão dispensadas da apresentação dos documentos comprobatórios da condição de representantes legais do emissor, desde que seja possível comprovar tal condição no sítio eletrônico da instituição emissora da garantia.

As instituições emissoras das garantias não podem estar inadimplentes com a obrigação de indenizar a ANP por garantias já apresentadas, nem estar sob regime de direção fiscal, intervenção e liquidação extrajudicial. A ANP lançará no sítio eletrônico <http://rodadas.anp.gov.br> a lista das instituições financeiras inadimplentes com a obrigação de indenizar a ANP e que, portanto, não serão admitidas como garantidoras.

#### **10.1.2.1 Programa Exploratório Mínimo (PEM) – Blocos Exploratórios**

O valor total das garantias apresentadas para respaldar o cumprimento do programa exploratório mínimo corresponderá a 30% (trinta por cento) do valor das unidades de trabalho (UTs) ofertadas para o bloco objeto do contrato de concessão multiplicado pelo valor em reais da UT para cada bloco, conforme Tabela 25 do ANEXO XIV.

O valor monetário previsto do programa exploratório mínimo objeto dos instrumentos de garantia apresentados pela licitante vencedora será automaticamente corrigido monetariamente em 1º de janeiro de cada ano civil, pela variação do IGP-DI do ano imediatamente anterior, exceto no dia 1º de janeiro imediatamente posterior à publicação do edital, quando não haverá atualização.

### 10.1.2.2 Programa de Trabalho Inicial (PTI) – Áreas com Acumulações Marginais

O programa de trabalho inicial (PTI) corresponde ao conjunto de atividades relacionadas a avaliação da área com acumulação marginal a ser executado pela concessionária. A Tabela 17 consolida o programa de trabalho inicial (PTI) mínimo por área com acumulação marginal que deve ser cumprido integralmente na fase de reabilitação.

As atividades do PTI devem ser limitadas, exclusivamente, ao interior da área com acumulação marginal e incluem a reentrada, o teste de longa duração (TLD), o teste de formação (TF) e a reinterpretação sísmica.

A reentrada deve envolver atividades realizadas em poços visando ao restabelecimento de suas condições operacionais para produção ou injeção.

O TLD deverá ter como finalidade a obtenção de dados e informações para conhecimento dos reservatórios, com tempo total de fluxo superior a 72 (setenta e duas) horas.

O TF deverá ter como finalidade a obtenção de dados e informações para conhecimento dos reservatórios, com tempo total de fluxo até 72 (setenta e duas) horas.

A reinterpretação deve consolidar o conhecimento geológico da área, identificando as zonas estratigráficas, os reservatórios e as estruturas mais potenciais ao acúmulo de petróleo ou gás.

Para a garantia na modalidade de depósito caução, a licitante (caucionária) deverá abrir uma ou mais contas-caução em qualquer agência da Caixa Econômica Federal (CEF), tendo como favorecido a Agência Nacional de Petróleo, Gás Natural e Biocombustíveis - ANP (CNPJ 02.313.673/0002-08).

Em caso de utilização desta modalidade deverá ser apresentado o comprovante de depósito, bem como a via original do formulário “Recibo de Caução” devidamente preenchido e assinado. Caso o depósito seja efetuado em cheque, também deverá ser apresentado o extrato da conta caução comprovando a compensação do cheque.

O depósito caução deverá ser individualizado para cada contrato de concessão, devendo ser utilizada uma conta caução específica para depósito da garantia referente à cada contrato a ser assinado.

Os critérios, condições e índices de correção/ atualização do valor depositado na conta caução são definidos pela CEF e encontram-se estipulados no próprio formulário “Recibo de Caução”, disponível no ANEXO XII.

#### **10.1.2.3.4 Penhor de petróleo e gás natural**

Serão admitidos contratos de penhor de petróleo e gás natural produzidos no território nacional, em campos onde a extração do primeiro óleo tenha ocorrido há pelo menos dois anos, a produção se mantenha nesse período e que apresentem reservas provadas que suportem a curva de produção comprometida.

O contrato de penhor estará sujeito à aprovação prévia da ANP, devendo ser apresentado conforme os seguintes modelos:

- a) Contrato de Penhor de Petróleo e Gás Natural (BOE) - ANEXO XXV - Parte 1; ou
- b) Contrato de Penhor de Gás Natural - ANEXO XXV - Parte 2.

O Contrato de Penhor de Gás Natural deverá estar associado a gás monetizável mediante contrato de compra e venda previamente firmado entre o contratado e terceiros.

Somente serão aceitos para fins de cálculo do valor total empenhado campos cujo valor médio da receita operacional líquida ajustada à base de cálculo, por barril, dos quatro trimestres anteriores ao trimestre da data de assinatura do contrato seja positivo.

A receita operacional líquida ajustada à base de cálculo será apurada conforme disposições e definições previstas para preenchimento do Demonstrativo de Apuração da Participação Especial (DAPE), conforme arts. 25 e 26 do Decreto nº 2.705/1998, Portaria ANP nº 58/2001 e Resolução ANP nº 12/2014.

O limite máximo de empenho aceito pela ANP para os contratos de penhor, considerando inclusive os contratos em vigor, será de 50% (cinquenta por cento) da produção anual total de petróleo e gás natural da concessionária no Brasil, aferida pela média dos últimos 12 (doze) meses dos valores constantes do Boletim da Produção de Petróleo e Gás Natural. Para que seja aceito como garantia ao programa exploratório mínimo ofertado ou ao programa de trabalho inicial definido em edital, o contrato de penhor de petróleo e gás natural deve ser assinado pelas partes e registrado junto aos Cartórios de Registro de Imóveis das circunscrições onde estiverem localizados os campos cujo petróleo e gás natural serão objetos do penhor.

A licitante vencedora deverá apresentar cópias da Guia de Recolhimento da União (GRU) e do recibo de pagamento do bônus de assinatura, acompanhadas de documento detalhando a identificação dos blocos ou áreas aos quais se refere o pagamento.

Em caso de consórcio, o pagamento poderá ser subdividido entre as consorciadas ou ser realizado por qualquer integrante em nome do consórcio, devendo ser emitida uma única GRU por empresa.

Nos casos previstos na seção 10.2, o pagamento do bônus de assinatura deverá ser efetuado pela empresa brasileira designada para assinar o contrato de concessão.

O pagamento fora do prazo estabelecido pela ANP implicará no acréscimo de 10% (dez por cento) sobre o valor ofertado para o bônus de assinatura, além de juros moratórios de 1% (um por cento) ao mês até a data do efetivo pagamento. A licitante deverá solicitar o cálculo do valor devido por meio do correio eletrônico [rodadas@anp.gov.br](mailto:rodadas@anp.gov.br) informando a data em que pretende efetuar o pagamento. Nesse caso, a licitante vencedora deverá encaminhar, em até 3 (três) dias úteis antes

da data estipulada para assinatura dos contratos de concessão, cópias da GRU e do recibo de pagamento do bônus de assinatura com acréscimo e juros moratórios.

As instruções para pagamento do bônus de assinatura serão disponibilizadas no sítio eletrônico <http://rodadas.anp.gov.br>.

#### **10.1.4 Contrato de consórcio**

As licitantes vencedoras que apresentaram oferta em consórcio deverão apresentar instrumento constitutivo do consórcio arquivado na Junta Comercial competente, subscrito pelos consorciados.

O contrato de consórcio deverá conter a indicação da licitante-líder, responsável pelo consórcio e pela condução das operações, sem prejuízo da responsabilidade solidária na forma do disposto no art. 38 da Lei nº 9.478/1997.

A garantia de performance será exigida às signatárias dos contratos de concessão, exclusivamente na condição de operadora, quando a licitante vencedora ou a afiliada indicada para assinatura do contrato tenha se qualificado tecnicamente pela experiência do seu grupo societário.

A garantia de performance deverá estar acompanhada: (i) dos documentos societários da pessoa jurídica que prestará a garantia, discriminados na seção 4.2.1, observando-se que o documento previsto na alínea (d) da mencionada seção deve ser assinado por seu representante legal, com poderes para tanto; e (ii) do organograma explicitando o relacionamento entre a pessoa jurídica que prestará a garantia de performance e a signatária do contrato, nos termos da seção 4.2.3.

#### **10.1.6 Termo de Compromisso de desativação e abandono**

A licitante vencedora de área com acumulação marginal deverá apresentar termo de compromisso por meio do qual se compromete a realizar todas as atividades necessárias para o abandono dos poços em que venha a realizar intervenções visando ao restabelecimento de suas condições operacionais para produção ou injeção, entre aqueles que tenham sido por ela indicados no ANEXO XXVIX, bem como a desativação das instalações e a recuperação ambiental das áreas afetadas.

#### **10.1.7 Documentos societários**

A licitante vencedora deverá apresentar os documentos societários mencionados nas alíneas (a), (b) e (c) da seção 4.2.1 que tenham sofrido alteração desde sua mais recente apresentação à ANP.

O objeto social da licitante vencedora, a constar dos atos constitutivos, deve estar adequado ao objeto da licitação.

#### **10.1.8 Comprovantes de regularidade fiscal e trabalhista**

A licitante vencedora deverá reapresentar as certidões previstas na seção 8.2 (d), caso o prazo de validade tenha vencido.

A existência de registro da licitante como devedora constitui fato impeditivo para assinatura de contrato de concessão, salvo se o registrado comprovar que:

- a) tenha ajuizado demanda com objetivo de discutir a natureza da obrigação, ou do seu valor, e oferecido garantia suficiente ao juízo, na forma da lei; ou
- b) esteja suspensa a exigibilidade do crédito objeto do registro.

## **10.2 Assinatura do contrato de concessão por afiliada**

A licitante vencedora poderá delegar a assinatura do contrato de concessão para afiliada que tenha sede e administração no Brasil.

Entende-se por afiliada, para o fim de assinatura do contrato de concessão, pessoa jurídica que exerça atividade empresarial e integre o mesmo grupo formal de empresas que a licitante vencedora ou que a esta esteja vinculada por relação de controle comum, direto ou indireto.

A licitante vencedora estrangeira ou FIP que não possua afiliada estabelecida no Brasil deverá, obrigatoriamente, constituir pessoa jurídica brasileira com sede e administração no País para figurar como concessionária.

Em caso de consórcio, a participação da afiliada indicada será idêntica à participação da licitante vencedora que a indicou, definida no envelope padrão de apresentação de ofertas.

A afiliada que receber a delegação deverá apresentar documentos para assinatura do contrato de concessão, previstos nas seções 10.1.2, 10.1.3 e, caso aplicável, 10.1.4, 10.1.5 e 10.1.6, e obter qualificação econômico-financeira, jurídica e técnica no nível exigido para assinar o contrato de concessão ou superior, além de comprovar sua regularidade fiscal e trabalhista.

### **10.2.1 Qualificação de afiliada indicada para assinar o contrato de concessão**

A afiliada indicada para assinar o contrato de concessão deverá entregar os seguintes documentos para qualificação econômico-financeira e jurídica e comprovação de regularidade fiscal e trabalhista, nos prazos definidos pela ANP, na forma prevista na seção 3.

- a) Documentos societários da signatária, nos termos da seção 4.2.1;
- b) Procuração para nomeação de representantes credenciados, nos termos da seção 4.2.2;
- c) Organograma explicitando o relacionamento entre a licitante vencedora e a signatária, nos termos da seção 4.2.3;
- d) Declaração de ausência de impedimentos para assinatura do contrato de concessão, nos termos da seção 8.1 (b);
- e) Declaração sobre pendências legais ou judiciais relevantes, nos termos da seção 8.1 (c);
- f) Comprovantes de regularidade fiscal e trabalhista, nos termos da seção 8.1 (d);

- g) Demonstrações financeiras e parecer de auditor independente, nos termos da seção 8.3.1.

A afiliada indicada para assinatura do contrato de concessão poderá optar por se qualificar tecnicamente, nos termos da seção 8.2, ou aproveitar a experiência do seu grupo societário, utilizando a qualificação técnica da licitante vencedora.

Caso a afiliada indicada não obtenha qualificação no nível mínimo exigido para assinatura do contrato ou não comprove regularidade fiscal e trabalhista, será adotado o procedimento previsto na seção 10.3.

### **10.3 Procedimento para o caso de não assinatura do contrato de concessão**

#### **10.3.1 Não assinatura por licitante que tenha vencido isoladamente**

Caso a licitante tenha vencido isoladamente a licitação e não celebrar o contrato de concessão até a data definida pela ANP, as licitantes remanescentes que apresentaram oferta para o bloco ou área em questão serão convocadas, por meio de chamada única, para manifestarem interesse em honrar a oferta vencedora.

Para manifestar seu interesse, a licitante remanescente deverá, no prazo definido pela CEL, declarar formalmente, nos termos da seção 3, que honrará os valores constantes da oferta vencedora. No mesmo prazo, deverá apresentar garantias de ofertas válidas, caso as garantias retidas nos termos da seção 6.3 estejam vencidas.

A partir da convocação da ANP para a assinatura do contrato de concessão, a licitante remanescente que manifestar interesse em assumir a oferta vencedora disporá de prazo definido pela CEL para apresentar os documentos de qualificação previstos na seção 8, se aplicável, e os documentos de assinatura previstos na seção 10.

Caso as licitantes remanescentes não tenham passado pela etapa de qualificação, será adotado o procedimento previsto na seção 8.

O critério de preferência para assinatura do contrato de concessão será a ordem de classificação prevista na seção 7.4.

Caso a licitante vencedora ou a que manifestar interesse em honrar a oferta apresentada pela vencedora não celebre o contrato de concessão, sua garantia de oferta será executada e financeiramente liquidada nos termos da seção 6.5, sem prejuízo da aplicação das penalidades previstas na seção 11 e na legislação aplicável.

Nesta hipótese, caso o bônus de assinatura já tenha sido pago, o valor correspondente será devolvido pela ANP, após descontados os valores devidos pelas penalidades previstas na seção 11 e na legislação aplicável.

Para blocos ou áreas em que não houver licitantes remanescentes interessadas em honrar a oferta vencedora, a CEL declarará a licitação encerrada.

### **10.3.2 Não assinatura por licitante integrante de consórcio**

Caso uma licitante integrante de consórcio vencedor não celebre o contrato de concessão até a data definida pela ANP, as demais consorciadas serão convocadas para, no prazo definido pela CEL, manifestarem interesse em assumir as responsabilidades da licitante desclassificada ou desistente, sem prejuízo da aplicação das penalidades previstas na seção 11 e na legislação aplicável.

Para tanto, é necessário que o consórcio ofertante mantenha pelo menos uma consorciada qualificada no nível mínimo exigido para o setor onde se localiza o bloco ou a área objeto da oferta, para atuar na condição de operadora da concessão. Caso necessário, as demais integrantes do consórcio serão convocadas para apresentar nova documentação de qualificação com o fim de assumir a operação do consórcio.

A convocação das demais consorciadas precederá a convocação prevista na seção 10.3.1.

Em nenhuma circunstância será permitida a entrada de nova integrante no consórcio vencedor antes da assinatura do contrato de concessão.

Caso nenhuma das licitantes integrantes do consórcio assuma as responsabilidades da licitante desclassificada ou desistente, a garantia de oferta será executada e financeiramente liquidada nos termos da seção 6.5 e será adotado o procedimento disposto na seção 10.3.1, sem prejuízo da aplicação das penalidades previstas na seção 11 e na legislação aplicável.

Nesta hipótese, caso o bônus de assinatura já tenha sido pago, o valor correspondente será devolvido pela ANP, após descontados os valores devidos pelas penalidades previstas na seção 11 e na legislação aplicável.

### **10.3.3 Não assinatura por consórcio**

Caso o consórcio vencedor não celebre o contrato de concessão até a data definida pela ANP, por motivo a que tenha dado causa, será adotado o procedimento previsto na seção 10.3.1 e a garantia de oferta será executada e financeiramente liquidada nos termos da seção 6.5, sem prejuízo da aplicação das penalidades previstas na seção 11 e na legislação aplicável.

Nesta hipótese, caso o bônus de assinatura já tenha sido pago, o valor correspondente será devolvido pela ANP, após descontados os valores devidos pelas penalidades previstas na seção 11 e na legislação aplicável.

## 11 DAS PENALIDADES

Sem prejuízo da desclassificação da licitante nas hipóteses previstas na seção 1.5 e da execução da garantia de oferta, no caso de descumprimento das obrigações estabelecidas neste edital ou em disposições legais cabíveis, a licitante, mediante processo administrativo em que sejam assegurados o contraditório e a ampla defesa, estará sujeita às seguintes penalidades:

- a) multa;
- b) suspensão temporária do direito de participar de futuras licitações e de contratar com a ANP pelo prazo máximo de 5 (cinco) anos, podendo ser estendida ao grupo societário da infratora;
- c) declaração de inidoneidade para licitar ou contratar com a Administração Pública enquanto perdurarem os motivos determinantes da punição ou até que seja promovida a sua reabilitação perante a ANP, que será concedida caso a infratora faça o ressarcimento dos prejuízos resultantes da infração, e após decorrido o prazo da sanção aplicada com base na alínea anterior.

As penalidades de suspensão temporária do direito de participar de futuras licitações e declaração de inidoneidade serão graduadas de acordo com a gravidade da infração, a vantagem auferida pela infratora e seus antecedentes.

### 11.1 Multa

Será aplicada multa sobre o somatório dos valores ofertados para o bônus de assinatura e o programa exploratório mínimo, no caso de blocos com risco exploratório, ou sobre o somatório do bônus de assinatura ofertado e o valor do programa de trabalho inicial definido na Tabela 17, no caso de áreas com acumulações marginais, nos seguintes percentuais:

- a) multa de 10% (dez por cento):
  - a.1) à licitante vencedora da sessão pública de apresentação de ofertas (conforme seção 7.4) que não for qualificada ou não mantiver as condições de qualificação até a assinatura do contrato de concessão;
  - a.2) à licitante remanescente que manifestar interesse em honrar a melhor oferta e não for qualificada ou não mantiver as condições de qualificação até a assinatura do contrato de concessão.
- b) multa de 20% (vinte por cento):

- b.1) à licitante vencedora da licitação (conforme seção 9) que não celebre o contrato de concessão até a data definida pela ANP;
- b.2) à licitante remanescente que manifestar interesse em honrar a oferta vencedora da licitação e não assinar o contrato de concessão até a data definida pela ANP.

Em caso de consórcio, o valor da multa será proporcional à participação das licitantes no consórcio. Quando as demais consorciadas assumirem as responsabilidades da licitante desclassificada ou desistente, nos termos das seções 8.6.2 e 10.3.2, a multa será aplicada somente a esta na proporção de sua participação.

A licitante remanescente declarada nova vencedora da sessão pública de apresentação de ofertas, nos termos da alínea (d) da seção 8.6.1, não estará sujeita à aplicação das multas previstas nesta seção, sem prejuízo da execução da garantia de oferta prevista na seção 6.5.

## **11.2 Suspensão temporária**

A suspensão temporária do direito de participar de futuras licitações e de contratar com a ANP será aplicada, sem prejuízo das demais penalidades, caso a infratora:

- a) pratique atos que ensejem o retardamento da execução do objeto da licitação;
- b) pratique atos dolosos em prejuízo dos objetivos da licitação;
- c) apresente documentação formal ou materialmente falsa;
- d) pratique, durante a licitação, ato lesivo à Administração Pública nacional ou estrangeira previsto na Lei nº 12.846/2013;
- e) pratique comportamento inidôneo durante a licitação.

A suspensão temporária do direito de participar de futuras licitações promovidas pela ANP e de contratar com a ANP será aplicada, sem prejuízo das demais penalidades: (i) caso a infratora seja reincidente em ser convocada e não assinar o contrato; e (ii) não apresente justificativa técnica, aceita pela ANP, fundamentada em fato posterior à sessão pública de apresentação de ofertas.

### **11.3 Declaração de inidoneidade**

A penalidade de declaração de inidoneidade será aplicada, cumulativamente com a suspensão temporária do direito de participar de futuras licitações e de contratar com a ANP, sem prejuízo da cominação de multa, caso a infratora pratique as condutas previstas nas alíneas (b), (c), (d) e (e) da seção 11.2.

## **ANEXO I - DETALHAMENTO DOS BLOCOS E ÁREAS COM ACUMULAÇÕES MARGINAIS EM OFERTA**

### **PARTE 1 – BLOCOS COM RISCO EXPLORATÓRIO**

Para fins de oferta nesta rodada de licitações, as bacias sedimentares brasileiras foram divididas em setores, os quais, por sua vez, foram divididos em blocos exploratórios.

Para delimitação dos blocos exploratórios, a ANP adotou o grid cartográfico do IBGE, resultado da divisão da Carta Internacional ao Milionésimo (CIM):

- a) para blocos localizados em setores de nova fronteira em terra, utilizou-se o grid da escala 1:100.000, de 30' de longitude e de 30' de latitude, com área aproximada de 3.000 km<sup>2</sup>.

Em caso de áreas de exclusão nos blocos, utilizou-se o grid formado por células de 3'45" de longitude e de 2'30" de latitude. Informações adicionais a respeito da divisão das bacias sedimentares podem ser obtidas no sítio eletrônico <http://rodadas.anp.gov.br>.

Na Oferta Permanente de blocos exploratórios, são oferecidos 884 blocos com risco exploratório, localizados em 40 setores de 13 bacias sedimentares brasileiras: Paraná e Parnaíba.

As bacias, os setores, os blocos e suas respectivas localizações e áreas em km<sup>2</sup> encontram-se na Tabela 20A.

As coordenadas encontram-se no sistema de coordenadas SIRGAS 2000 e estão listadas a seguir em forma de textos. As coordenadas estão com três casas decimais, conforme convencionado pelo Padrão ANP4C.

Os limites dos blocos vizinhos a áreas contratadas (convertidas do SAD 69 para SIRGAS2000) possuem vértices intermediários adicionais para garantir a sua localização com maior precisão. Na listagem de coordenadas, esses vértices estão com suas coordenadas arredondadas na terceira casa decimal do segundo, seguindo a orientação do Padrão ANP4C.

Os mapas e o arquivo Shapefile dos blocos serão disponibilizados nos sítios eletrônicos <http://rodadas.anp.gov.br> e <http://bdep.gov.br>.

## PARTE 2 – ÁREAS COM ACUMULAÇÕES MARGINAIS

Para fins da Oferta Permanente de áreas com acumulações marginais, as bacias sedimentares brasileiras foram divididas em setores, os quais, por sua vez, foram divididos em áreas com acumulações marginais.

Atualmente, a Oferta Permanente de áreas com acumulações marginais contempla 14 áreas com acumulações marginais, quais sejam: Camaçari, Fazenda Gameleira, Fazenda Sori, Lagoa Parada Sul, Lagoa Verde, Miranga Leste, Mosquito, Piaçabuçu, Pojuca Norte, Rio Ibiribas, Rio Joanes, Saíra, Tiziu e Trapiá. Estas áreas encontram-se distribuídos em 4 bacias sedimentares maduras: Espírito Santo, Potiguar, Recôncavo e Sergipe-Alagoas.

As bacias, os setores, as áreas e suas respectivas localizações e dimensões em km<sup>2</sup> encontram-se na Tabela 20B.

As coordenadas encontram-se no sistema de coordenadas SIRGAS 2000 e estão listadas a seguir em forma de textos. As coordenadas estão com três casas decimais, conforme convencionado pelo Padrão ANP4C.

Os limites dos blocos vizinhos a áreas contratadas (convertidas do SAD 69 para SIRGAS2000) possuem vértices intermediários adicionais para garantir a sua localização com maior precisão. Na listagem de coordenadas, esses vértices estão com suas coordenadas arredondadas na terceira casa decimal do segundo, seguindo a orientação do Padrão ANP4C.

Os mapas e o arquivo Shapefile das áreas serão disponibilizados nos sítios eletrônicos <http://rodadas.anp.gov.br> e <http://bdep.gov.br>.

5.6 A CAIXA enquanto Favorecida realiza o levantamento do depósito sob caução, independente de autorização judicial ou comunicação formal, dos valores caucionados a título de indenização. Não sendo possível intimar os Caucionários da decisão administrativa que fixou a indenização, far-se-á sua convocação por Edital, podendo a CAIXA levantar o depósito sob caução, caso esses não venham saldar seus compromissos decorridos 5 dias úteis da convocação.

5.7 O saldo da conta recebe remuneração "pró-rata-die" pelo mesmo índice de remuneração básica, dada pela Taxa Referencial - TR, referente ao primeiro dia do mês. Quando nesse dia a remuneração básica for igual a "0,00" não haverá correção/atualização do saldo no mês.

5.7.1 O valor da remuneração é provisionado diariamente e o crédito é efetuado automaticamente na conta no último dia útil do mês e na data em que ocorra movimentação a débito ou a crédito.

5.8 Sobre os depósitos das contas caução há incidência de Imposto de Renda Retido na Fonte (IRRF), exceto os caucionários imunes, isentos ou beneficiado de alíquota zero.

Para os setores de águas rasas serão atribuídos, no máximo, 31 UTs por bloco exploratório, enquanto que nos setores de águas profundas serão atribuídos, no máximo, 72 UTs por bloco.

#### CLÁUSULA PRIMEIRA – OBJETO E VIGÊNCIA

- 1.1 O presente Contrato tem por objeto o penhor do Petróleo e Gás Natural extraídos do(s) Campo(s) listado(s) no Anexo I, já em efetiva produção, como forma de garantir o(s) Programa(s) Exploratório(s) Mínimo(s) estabelecido(s) no(s) Contrato(s) de Concessão listado(s) no Anexo II deste Contrato de Penhor de Petróleo e/ou Gás Natural (BOE), adquirido(s) por ocasião da Oferta Permanente, ocorrida em [inserir a data, no formato dia/mês/ano].

- 1.2 O presente instrumento entrará em vigor na data de sua assinatura e vigorará até o cumprimento integral dos Programas Exploratórios Mínimos assegurados.

## **CLÁUSULA SEGUNDA – FORMALIZAÇÃO DO PENHOR**

- 2.1 A [inserir a denominação social da licitante], neste ato, dá em primeiro e exclusivo penhor à ANP, em conformidade com os artigos 1.431 a 1.435 e 1.447 a 1.450 da Lei n.º 10.406, de 10 de janeiro de 2002 (Código Civil Brasileiro), para o fim de garantir [inserir "parcialmente" ou "totalmente", conforme o caso] as obrigações assumidas no(s) Contrato(s) de Concessão listado(s) no Anexo XX, relativamente aos Programa(s) Exploratório(s) Mínimo(s) nele(s) contido(s), o Petróleo extraído(s) do(s) campo(s), a partir do Ponto de Medição, conforme definido no(s) referido(s) Contrato(s) de Concessão, do(s) Campo(s) em Fase de Produção listado(s) no Anexo I deste Contrato de Penhor de Petróleo e Gás Natural (BOE), em quantidade equivalente a/ao [inserir "parte" ou "total", conforme o caso] do valor comprometido no(s) Programa(s) Exploratório(s) Mínimo(s) conforme listado(s) no Anexo II do presente Contrato.
- 2.2 A [inserir a denominação social da licitante] confirmará, por meio de Boletins Mensais de Medição e do Demonstrativo de Apuração da Participação Especial (DAPE), a Produção de Petróleo e Gás Natural dos campos mencionados no Anexo I, de maneira a manter sempre empenhada quantidade necessária à satisfação integral das obrigações assumidas no presente Contrato em relação ao(s) Programa(s) Exploratório(s) Mínimo(s), no montante definido na Cláusula 9.1.
- 2.3 A [inserir a denominação social da licitante] se compromete a monitorar o Valor Total Empenhado nos termos da cláusula 3.4 e apresentar reforço de garantia sempre que houver diferença negativa entre a garantia efetiva e a garantia requerida superior à permitida na legislação aplicável, ou sempre que solicitado pela ANP.

## **CLÁUSULA TERCEIRA – FÓRMULA DE CÁLCULO DO PENHOR EM ÓLEO DO ANEXO I**

- 3.1 O valor total do penhor em petróleo para cada ano seguirá a seguinte fórmula de cálculo:

$$\text{Valor Total Empenhado} = \sum_c (\text{Produção} \times \alpha_c \times \text{PBrent} \times \text{Taxa de Câmbio} \times T)$$

Onde:

$\sum_c$  = somatório dos valores para cada campo ofertado em garantia

Produção = Total da Produção diária prevista do campo empenhado, considerando o percentual da concessão ou outorga que é de propriedade da [inserir a denominação social da licitante].

$\alpha_c$  = multiplicador que representa o diferencial de qualidade entre o petróleo tipo Brent e o petróleo da corrente do campo ofertado em garantia, calculado pela ANP para fins de pagamento de participações governamentais conforme memória de cálculo dos preços mínimos do petróleo para fins de pagamento de participações governamentais.

PBrent = Preço de Referência, em US\$/bbl, correspondente ao valor médio mensal dos preços diários do petróleo Brent, cotados na PLATT'S CRUDE OIL MARKETWIRE, em dólares americanos por barril, para o mês imediatamente anterior ao encaminhamento da minuta de contrato à ANP.

Taxa de Câmbio = Taxa de Câmbio oficial fornecida pelo Banco Central do Brasil (Ptax de Compra), do fechamento do dia útil imediatamente anterior ao dia de encaminhamento da minuta de contrato à ANP.

T = prazo máximo, em dias, de execução contratual, conforme cláusula 4.2

- 3.2 A ANP adotará revisão periódica do valor total do penhor de petróleo e gás natural (BOE) ofertado como garantia, na forma prevista neste contrato e na Legislação Aplicável.
- 3.3 Para fins da revisão periódica de que trata a cláusula 3.2, serão adotados os seguintes parâmetros:
- a) **Valor Total Empenhado**: valor total do penhor de petróleo e gás natural (BOE) para cada ano, conforme determinado na cláusula 3.1. Deve, no momento da assinatura do contrato, ser maior ou igual à Garantia Requerida.
  - b) **Garantia Requerida**: é o valor mínimo que o concessionário deve empenhar à ANP para garantir a liquidação das obrigações decorrentes do valor total [ou equivalente a \_\_\_\_%] do PEM dos blocos listados no Anexo II do presente instrumento, que será corrigido pelo IGP-DI nos termos do Contrato de Concessão.
  - c) **Garantia efetiva**: é o valor de mercado da produção efetiva total dos campos empenhados em garantia da liquidação das obrigações decorrentes do PEM, calculado pela seguinte fórmula

$$G_E = Q_E \times T \times \alpha_c \times P_{Brent} \times Taxa \ de \ Câmbio, \text{ onde}$$

$Q_E$  = Média da produção efetiva do campo no mês anterior ao da aferição;

T = prazo máximo, em dias, de execução contratual, conforme cláusula 4.2;

$\alpha_c$  = multiplicador que representa o diferencial de qualidade entre o petróleo tipo Brent e o petróleo da corrente do campo ofertado em garantia, calculado pela ANP para fins de pagamento de participações governamentais conforme memória de cálculo dos preços mínimos do petróleo para fins de pagamento de participações governamentais.  $P_{Brent}$  = Preço de Referência, em US\$/bbl, correspondente ao valor médio mensal dos preços diários do petróleo Brent, cotados na PLATT'S CRUDE OIL MARKETWIRE, em dólares americanos por barril, para o mês imediatamente anterior ao da revisão periódica; e

Taxa de Câmbio = taxa de câmbio vigente (taxa Ptax de compra) no dia útil anterior ao da aferição;

- d) **Chamada de margem de garantia**: é a diferença negativa entre a garantia efetiva e a garantia requerida, ou seja, é o valor adicional que o concessionário deve empenhar à ANP a fim de atender ao requerimento de margem, caso a variação dos parâmetros adotados no momento da assinatura do contrato faça com que a garantia efetiva do penhor seja, no momento da revisão periódica, inferior à garantia requerida.

3.4 Somente serão aceitos para fins de cálculo do Valor Total Empenhado campos cujo valor médio da Receita Operacional Líquida Ajustada à Base de Cálculo, por barril, dos quatro trimestres anteriores ao da data de assinatura do contrato seja positivo.

3.4.1 - Para fins desta cláusula, será considerada a Receita Operacional Líquida Ajustada à Base de Cálculo apurada conforme disposições e definições previstas para preenchimento do Demonstrativo de Apuração da Participação Especial (DAPE), conforme Decreto 2705/98, arts. 25 e 26, Portaria ANP nº 58/2001 e Resolução ANP nº 12/2014 .

### **CLÁUSULA TERCEIRA – FÓRMULA DE CÁLCULO DO PENHOR EM GÁS NATURAL DO ANEXO I**

3.1 O valor total do penhor em Gás Natural para cada ano seguirá a seguinte fórmula de cálculo:

$$\text{Valor Total Empenhado} = \sum_c (\text{Produção} \times \text{PRGN} \times T)$$

Onde:

$\sum_c$  = somatório dos valores para cada campo ofertado em garantia

Produção = total da produção diária prevista do campo empenhado, considerando o percentual da concessão ou outorga que é de propriedade da [inserir a denominação social da licitante]

PRGN = Preço de Referência do Gás Natural para o campo empenhado, em R\$/m<sup>3</sup>, divulgado pela ANP no mês anterior ao da aferição.

T = prazo máximo, em dias, de execução contratual, conforme cláusula 4.2

3.2 A ANP adotará revisão periódica do valor total do penhor em Gás Natural ofertado como garantia, na forma prevista neste contrato e na Legislação Aplicável.

3.3 Para fins da revisão periódica de que trata a cláusula 3.2, serão adotados os seguintes parâmetros:

- a) **Valor Total Empenhado**: valor total do penhor em gás natural para cada ano, conforme determinado na cláusula 3.1. Deve, no momento da assinatura do contrato, ser maior ou igual à Garantia Requerida.
- b) **Garantia Requerida**: é o valor mínimo que a Contratada deve empenhar à ANP para garantir a liquidação das obrigações decorrentes do valor total [ou equivalente a \_\_\_\_%] do PEM dos blocos listados no Anexo II do presente instrumento, que será corrigido pelo IGP-DI nos termos do Contrato de Concessão.
- c) **Garantia efetiva**: é o valor de mercado da produção efetiva total dos campos empenhados em garantia da liquidação das obrigações decorrentes do PEM, calculado pela seguinte fórmula

$$G_E = Q_E \times T \times PRGN, \text{ onde}$$

$Q_E$  = Média da produção efetiva do campo no mês anterior ao da aferição;

$T$  = prazo máximo, em dias, de execução contratual, conforme cláusula 4.2;

$PRGN$  = Preço de Referência do Gás Natural para o campo empenhado, em R\$/m<sup>3</sup>, divulgado pela ANP no mês anterior ao da aferição.

- d) **Chamada de margem de garantia**: é a diferença negativa entre a garantia efetiva e a garantia requerida, ou seja, é o valor adicional que a contratada deve empenhar à ANP a fim de atender ao requerimento de margem, caso a variação dos parâmetros adotados no momento da assinatura do contrato faça com que a garantia efetiva do penhor seja, no momento da revisão periódica, inferior à garantia requerida.

- 3.4 Somente serão aceitos para fins de cálculo do Valor Total Empenhado campos cujo valor médio da Receita Operacional Líquida Ajustada à Base de Cálculo, por m<sup>3</sup>, dos quatro trimestres anteriores ao da data de assinatura do contrato seja positivo.

3.4.1 Para fins desta cláusula, será considerada a Receita Operacional Líquida Ajustada à Base de Cálculo apurada conforme disposições e definições previstas para preenchimento do Demonstrativo de Apuração da Participação Especial (DAPE), conforme Decreto 2705/98, arts. 25 e 26, Portaria ANP nº 58/2001 e Resolução ANP nº 12/2014.

- 3.5 O Contrato de Penhor de Gás Natural a ser celebrado entre a ANP e a contratada deverá está associado ao gás monetizável mediante Contratos de Compra e Venda entre a contratada e terceiros, dessa forma o valor da produção deverá levar em consideração volume diário assegurado pelas cláusulas “take or pay” dos contratos de compra e venda.

## CLÁUSULA QUARTA – TRADIÇÃO E DEPÓSITO

- 4.1 Nos termos do art. 1.431, Parágrafo Único, do Código Civil Brasileiro, o Gás Natural empenhado continua em poder do devedor, a [inserir a denominação social da licitante], que o deve guardar e conservar, enquanto não iniciada a execução do penhor ou qualquer outra hipótese prevista no artigo 1.436, V do Código Civil Brasileiro. ## ANEXO XXVIII - MODELO DE GARANTIA DE PERFORMANCE

A presente Garantia de Performance refere-se ao Contrato de Concessão nº [inserir o número do Contrato de Concessão], [inserir o tipo de objeto: Bloco ou Área] [inserir o nome/sigla do bloco ou área], celebrado entre a Agência Nacional do Petróleo, Gás Natural e Biocombustíveis (ANP) e [inserir a denominação social da concessionária] (“Garantida”), [inserir o tipo societário] constituída de acordo com as leis brasileiras.

Com referência às obrigações decorrentes do Contrato, ou a este relacionadas, assumidas pela Garantida, ou que possam a ela ser impostas, [inserir o nome da garantidora] (“Garantidora”), uma [inserir o tipo societário] constituída segundo as leis de [inserir país de origem da Garantidora], uma controladora, direta ou indireta, ou matriz da Garantida, concorda integralmente com as disposições abaixo numeradas:

1. Os termos escritos em letras maiúsculas e aqui não definidos terão seus significados estabelecidos no Contrato.
2. A Garantidora declara à ANP que: (i) está constituída de acordo com as leis de sua jurisdição; (ii) dispõe das autorizações societárias necessárias e de todos os poderes societários e de representação legal para firmar, apresentar e cumprir esta Garantia; (iii) esta Garantia representa as obrigações legais validamente assumidas pela Garantidora e é contra esta executável, de acordo com os seus termos; (iv) não são necessárias aprovações governamentais quanto à execução, apresentação e cumprimento desta garantia, salvo as que já foram obtidas e ora estão em vigor; e (v) a execução, apresentação e cumprimento desta Garantia pela Garantidora não violarão qualquer dispositivo de lei ou regulamento existentes aos quais esta esteja sujeita, bem como qualquer disposição dos documentos societários da Garantidora ou de quaisquer acordos ou contratos dos quais esta faça parte.
3. A Garantidora, pela presente, garante à ANP, em caráter incondicional, como devedora principal, o cumprimento devido e pontual de todas as obrigações da Garantida em razão do Contrato ou com este conexos.
4. Se a Garantida não cumprir, em qualquer aspecto, suas obrigações assumidas no Contrato ou violar, de alguma forma, as disposições dele constantes, a Garantidora compromete-se, mediante notificação oficial, por escrito, a realizar qualquer medida necessária para o fiel cumprimento das obrigações assumidas no mencionado instrumento contratual, assumindo a responsabilidade por quaisquer perdas, prejuízos, reclamações, custos e despesas resultantes da falha nas operações realizadas pela Garantida ou pela violação do Contrato

por parte desta. Eventuais iniciativas da ANP para responsabilização direta da Garantida, a qualquer tempo, não invalidam as obrigações da Garantidora constantes da presente Garantia.

5. Esta Garantia é incondicional e terá força e efeito até que todas as obrigações da Garantida no Contrato, ou em conexão com este, estejam total e irrevogavelmente satisfeitas e extintas, não obstante (a) qualquer aditivo ou término do Contrato, (b) qualquer extensão de prazo, outra tolerância, ou concessão feita pela ANP, ou (c) qualquer atraso ou falha por parte da ANP na obtenção de soluções disponíveis contra a pessoa jurídica Garantida.
6. Será permitida a substituição desta Garantia de Performance no caso de cessão da totalidade da participação indivisa nos direitos e obrigações relativos à concessão, desde que a cessionária assuma expressamente a responsabilidade por todos os deveres anteriores e posteriores à sua entrada no Contrato.
7. A ANP não estará obrigada a recorrer a qualquer outra garantia ou iniciar qualquer ação contra, ou com respeito à Garantia, antes de executar seus direitos decorrentes desta Garantia diretamente contra a Garantidora. A Garantidora, ademais, não será permitida a alegação de que a ANP poderia ter evitado ou tolerado, de qualquer maneira, ou através de qualquer ação, os prejuízos resultantes do descumprimento do Contrato pela Garantida, ou de que esta Agência poderia recorrer a qualquer outra garantia existente em qualquer tempo em seu favor, antes de agir contra a Garantidora em conexão com as obrigações deste, consoante esta Garantia. As obrigações da Garantidora nos termos desta Garantia serão independentes e indivisas e esta não terá direito a compensação ou oposição com relação a quaisquer reivindicações que possa ter contra a ANP.
8. Todas as obrigações da Garantidora aqui estabelecidas obrigarão a Garantidora e seus sucessores. A Garantidora não poderá ceder ou delegar seus deveres e obrigações sem o prévio consentimento oficial, por escrito, da ANP, e qualquer alegada Cessão ou delegação, sem tal consentimento, será nula e sem qualquer valor. A Garantidora confirma que esta Garantia será válida com relação a qualquer cessionária que seja Afiliada da Garantida, nos termos deste Contrato. Ocorrendo a mencionada Cessão, a cessionária será considerada como a Garantida para todos os fins da presente, na extensão das obrigações cedidas.
9. Esta Garantia será regida e interpretada de acordo com as leis da República Federativa do Brasil.
10. Qualquer descumprimento, demora ou tolerância da ANP em exercer qualquer direito, em todo ou em parte, em razão deste instrumento, não será entendido como renúncia ao exercício do referido direito ou de qualquer outro.

11. Qualquer aditivo ou alteração desta Garantia somente será válido se feito oficialmente e assinado pela Garantidora e pela ANP.
12. Qualquer controvérsia relativa à interpretação desta Garantia será resolvida, em termos exclusivos e definitivos, mediante arbitragem realizada consoante as Regras da Câmara de Comércio Internacional.
13. Os custos e despesas efetivamente incorridos pela ANP em decorrência da execução desta Garantia, inclusive e sem limitação, as custas e os honorários advocatícios serão pagos à vista pela Garantidora, contra a apresentação das faturas.
14. Todas e quaisquer notificações, pedidos, instruções, renúncias ou outras comunicações relativos a esta Garantia, bem como quaisquer consentimentos nesta previstos, serão redigidos em língua portuguesa e só serão considerados válidos após o recebimento, devendo ser entregues pessoalmente ou remetidos por courier, sedex ou fax, para os endereços abaixo:
