Dear Sir Henry Lynch,

Perhaps you will hardly remember me in the old days, when I was with De Laide and your brother Cyril in the old London & River Plate Bank -

I am returning to send to you some old papers about Rio, which belonged to my family, who were merchants over a hundred years ago in that City.

There is the original report of the British Minister to our Prince Regent in 1810 on Commerce in Brazil; and some notes from various other Ministers - Lord Aberdeen and Sir Arthur Cusley (Loanda was one of my grandfather's slaves)

I thought they might be of interest to the British Chamber of Commerce at yours -

My friend Oscar Cox sold some for £5 in Rio two years since -

Excuse me troubling you in this matter
Yours faithfully
Gus. B. Hall
