Dear Lady Peel,

Thank you for your letter about Mr. Marco Felicissimo Xavier. I am glad to say that the operation which was performed today was very good news, and it will not be necessary for further surgical treatment to take place.

We have already informed the Head of the Latin American Department of the British Broadcasting Company, who has, I am sure by this time, already cabled the family.

As you may know, our Dr. Parsons-Smith has already had a telephonic conversation with the father in Rio about the case, and you may rest assured everything will be done to keep the family informed.

Yours very sincerely,

May K. Lockman

Sister in Charge.
