

Sandown Isle of Wight
4/6/47

My dear Mr. Lacombe. ^{Perp. July 7}

I am writing this from the seaside on the Isle of Wight where I am spending a short holiday with my family. By the same mail I beg to send you a few views of Sandown.

Mr. Scherberger has sent me your valued favor of the 13th May for which I thank you & of which I have taken note with great interest. Mr. Scherberger & myself note with pleasure that the Rio Grande is working hard to initiate the export business, & we

3

Your information regarding
crops & finance, are greatly
appreciated by us, & I thank
you very much for same.
If the Blossoms should point
to a large yield 1915/16 we
shall certainly see lower
prices later on, but personally
I believe that later on we shall
receive the customary un-
favorable news, likewise a frost
is not impossible, & more
likely than not we shall see
periods of fineness during
the autumn, which might be
able to ^{enable} the planters to realize
full prices for at least part
of their crop.

4

In about 8 or 10 days time
I shall be back in town.

Trusting that you are in
good health, & hoping soon to
receive the long expected
favorable news from you.
I remain, Dear Mr. Caswell,
with kindest regards,

Yours very truly
H. S. Hubbard

2

hope with you that the
final decision will soon
be given. You may be
certain that all our side
no time will be lost &
we are very anxious to
receive full particulars
from you.

As regards Racombe &
description for Messrs. McDonald
I hope that you will be
able to make us suitable
offers for all of the Tunis
Cooperative Association. I
presume that the Director
will have no objection
to keeping these descriptions
up; the more so as I under-
stand that the Export Dep.
will be managed by you.
