Established in 2016, the **Secretariat of Coordination and Governance of State Owned Enterprises – Sest** is part of the Special Secretariat of Privatization, Divestments and Markets – SEDDM in the Ministry of Economy in Brazil. Our goal is to improve governance in the federal State Owned Enterprises – SOEs and to contribute to the transparency and efficiency of public investment.

Sest's objective is to propose and establish the parameters regarding corporate budget, governance and personnel policies to SOEs, where the Federal Government owns, directly or indirectly, the majority of the social capital.

The first version of this report was published in 2020 along with other relevant accomplishments in governance, such as: completion of the OECD Review of the Corporate Governance of State Owned Enterprises in Brazil; publication of the SOE Bylaws model, in line with OECD guidelines; disclosure of the review on "Brazilian SOEs and Covid-19", where the main actions adopted by the companies were presented.

Sest also coordinates the liquidation processes of federal state owned enterprises, included in the National Privatization Program - PND, monitors and adopts the necessary measures to carry out the above-mentioned processes. In this context, it is important to mention the conclusion of the liquidation processes of Maranhão's Port Authority (CODOMAR), in September 2020, and of the Minas Gerais's Warehouses and Silos (CASEMG), in October 2020.

Through such mechanisms and respecting the majority shareholder's perspective, Sest provides a relevant service to the civil society, bringing recommendations to SOEs in line with the best worldwide existing governance practices.

# ESG Corporate Actions

### State Owned Enterprises in Brazil | Sest 2020/2021

# ESG Corporate Actions

The Brazilian SOE Statue given by Law nº 13.303/2016 presents in article 27 the social prerogative expected of each company, in a way that it must be oriented to the realization of the collective interest and aimed at providing the social well being and efficient allocation of the resources generated by each enterprise.

In this sense, in alignment with the best practices in governance, with focus on responsible business conduct, this report presents some non-financial performance highlights by the SOEs in 2020, with special attention to environmental, social and governance matters (ESG). Such actions are added on to financial performance of the SOE, in sustainability and social corporate responsibility issues, compatible with the market each company is allocated.

# Normalized Food Supply

# **CEAGESP - FOOD SUPPLY AND DISTRIBUTION CENTER OF SÃO PAULO**

CEAGESP promotes a programme, that assists 160 children and young adults who live in social vulnerability at its surroundings. In 2020, 108 children, between 11 months to 4 years of age, were attended and 37 children were sent to the Municipal Primary School. Another 30 students, between 6 and 13 years old were assisted with extra tutoring lessons and psychological follow up.

### State Owned Enterprises in Brazil Sest 2020/2021

# ESG Corporate Actions

# hdustry 🛍

# **CMB - BRAZILIAN MINT**

Above 60% of the waste generated by the company was recycled: more than 800 tons of waste were sent to recycling processes, re-refining oils, co-processing in kilns for cement production and composting to produce organic fertilizers. The Mint provided the first job training for teenagers living in its neighborhood, however, in 2020, because of the pandemic, training took place through theoretical online classes.

### HEMOBRAS - BRAZILIAN COMPANY OF BLOOD DERIVATIVES AND BIOTECHNOLOGY

In 2020, more than 7 tons of recyclable material were donated to a waste collectors' association, contributing to community's development.

### NUCLEP - BRAZILIAN NUCLEAR HEAVY EQUIPMENT COMPANY

In 2020, the company collected and recycled 37.81 liters of used vegetable oil brought by employees: when taking the oil, the employee receives detergent or soap. This project prevented the contamination of 756,200 liters of water. Another project aimed at providing information about the activities developed at the Port Terminal and preservation of Sepetiba Bay.

# A Infrastructure & Transport

### **CBTU - BRAZILIAN COMPANY OF URBAN TRAINS**

CBTU promoted an advertising campaign in its trains aimed at the sustainable use of electricity as an action towards social responsibility and stimulation of students' interest for new technologies with reduction or elimination of resource waste.

### **CDC - CEARA PORT AUTHORITY**

Many actions were in place in 2020 to monitor the ballast water and marine life, with results being reported in the company's site. Throughout the year several actions were promoted for environmental education with port's employees.

### **CDRJ - RIO DE JANEIRO PORT AUTHORITY**

CDRJ is engaged in several environmental and sustainable actions such as training and risk prevention programs. On the same note, the company has a social agenda that involves programs that exchange plastic bottle caps for wheelchairs and food donation to vulnerable families of the community.

# **CODEBA - BAHIA PORT AUTHORITY**

Codeba implemented a system for treating rainwater in the new waste plant at the Port in Salvador – BA. Furthermore, in the Port of Ilheus, environmental monitoring has begun which will allow a continuous environmental database collection to strengthen the dialogue between companies and the community around.

# ESG Corporate Actions

### **CODESA- ESPIRITO SANTO PORT AUTHORITY**

Codesa promoted safety, environmental and educational actions in the local community, oriented to truck drivers that work in the Port. The material included videos, guidebooks and magazines related to topics such as selective collection, water conservation, forests, sustainability and more.

# CODEVASF - DEVELOPMENT COMPANY FOR RIVERS SÃO FRANSCISO AND PARNAIBA VALLEYS

Codevasf promoted environmental actions such as the implementation of a sewage system for lowincome families, water supply system, conservation of water mines, soil and forest resources, regeneration of native vegetation and environmental education for the local producers and their families. It is estimated that 2 million people were beneficiated with sustainable economy actions. Moreover, 16 thousand tons of goods such as machinery, automobiles and general resources were donated, 24 units of production and commercialization were finished and nearly 140 works for production outflow were concluded.

### **TRENSURB - TRAIN COMPANY OF PORTO ALEGRE**

The company promotes accessibility solutions at the train stations for people with low mobility and offers vocational programs on administrative subjects for young people from low-income families.

### **SPA - SANTOS PORT AUTHORITY**

SPA is aligned with sustainable development goals: training and education to port workers and the community, managing the use and reuse of water resources and promotion of marine life preservation initiatives.

In partnership with the Brazilian Sanitary and Surveillance Agency (ANVISA), SPA promoted in 2020 the first trial practice in Brazil to test response action in situation of Covid 19 with crew members boarded in ships in Brazilian territory.

Simulation promoted by SPA

# 🖺 Research and Contracts Management

# **CPRM - MINERAL RESOURCES RESEARCH COMPANY**

CPRM promoted technical support to the Civil Defense Agency of Maceió and Ministério Público of Alagoas State in the prevention of calamites in specific areas.

### State Owned Enterprises in Brazil | Sest 2020/2021

# ESG Corporate Actions

### **EMBRAPA - BRAZILIAN AGRICULTURAL RESEARCH CORPORATION**

In 2020 Embrapa developed an integrated data management and sustainability panel to monitor and analyze environmental regularities of its 12 spots and outlying improvements. "Vision for 2030: Sustainable Development" Project included studies in social economic and special changes in agriculture, strengthening of agriculture production systems, climate change, agricultural risks and the consumer as a protagonist.

Embrapa's scientists developed a new formula of a thickener to be used in antiseptic gels, in substitution to scarce carbopol.

Embrapa's laboratories were used for Covid-19's tests, all supervised by the Ministry of Health in association with Oswaldo Cruz Foundation and Adolfo Lutz Institute. In December 2020, 729 samples were processed.

# 🕑 Oil, Gas and Energy

# ELETROBRAS- BRAZILIAN ELECTRIC COMPANY

The company invested R\$ 886,2 million in environmental and social projects.

# Appendices

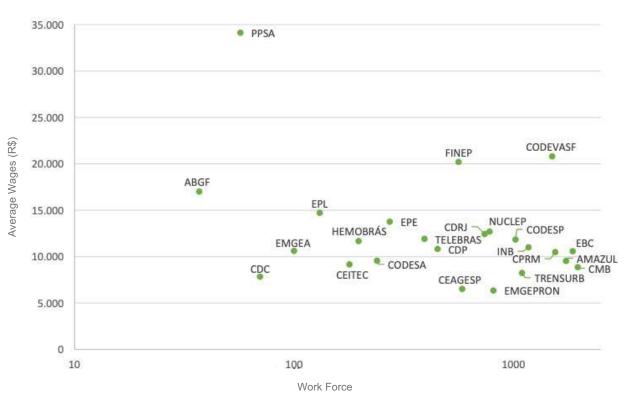

# Appendix A

# Average Wages by Work Force

#### SOEs with more than 200 employees

#### SOEs with less than 200 employees

# Appendix B

### Key Terms

Activity Cost - Indicates the proportion of production costs in relation to the net revenue earned from sales.

Actuarial Deficit - The situation when the actuarial value of a pension fund's assets is less than its actuarial liabilities

Advance for Future Capital Increase – Resources received by the companies from shareholders for future capital increase.

**Assets** - All assets that a company owns or controls with the expectation that it will provide a future benefit.

#### Audit Committee

#### **Board of Directors**

**Brazilian National Treasury Resources** – Resources that the state-owned enterprises receive from the Brazilian Treasury to investments or general expenses.

**Collective Bargaining Agreement** - Normative agreement signed between the Workers Union and the Economic Category Union (employers)

**Collective Labor Agreements** - Normative agreement signed between the Workers Union and one or more individual companies, without the intervention of any employer entity (Economic Category Union).

**Consolidated Data** – Data extracted from the Consolidated Financial Statements of a Conglomerate.

**Consumer Price Index - IPCA** - A price index that reflects the Brazilian inflation and calculated and disclosed by the "Instituto Brasileiro de Geografia e Estatística", the IBGE.

**Debenture** – a type of debt instrument that assures to the holder, the credit rights of the issuer company.

**DEBT** - Includes loans, leases, financing and debentures.

**Dependent State Owned Enterprise** - State-owned company that receives financial resources from the company's controlling shareholder to pay for expenses with personnel or current expenditures, or even that receives financial resources from the controlling shareholder to pay for capital expenditures, excluding, in the latter case, those arising from an increase in shareholding. Source: Fiscal Responsibility Law (Complementary Law No. 101, of May 4, 2000. Article 2, item III).

**Directly Controlled SOE** - refers to a situation where the Federal Government holds a majority of the voting capital directly.

**Divestment** - Sale of the controlling stake of an SOE indirectly owned by the state or, in other words, companies controlled by other SOEs (typically their subsidiaries). A divestment could also be the sale of an asset owned by an SOE, such as a power plant and the concession to explore an oil field.

**Dividends Paid to the Government** – It is the share of the profit that a company pays out to the Government.

**EBITDA** - Earnings before interest, taxes, depreciation, and amortization. It is a measure of a company's overall financial performance, is used as proxy for cash flow generation, considering the operational activities of the company. **Financing Need** – It's the percentage of the company's total expenses that cannot be paid with its own revenues. Measures the companies degree of dependence on the National Treasury's resources.

#### **Fiscal Council**

**Fiscal Status** – Refers to a situation of financial dependance or non-dependance on the company's controlling shareholder (see definition of dependent and non-dependent company).

**Global Expenditure Program** - A set of systematized economic and financial information on state-owned companies, which aims to assess the volume of resources and expenditures of state-owned companies, making it compatible with the goals of government economic policies. It involves incomes from Financial Intermediation, services provided and fees - Typical financial institution incomes.

**Gross Revenue** – total amount of sales recognized for a reporting period, prior to any deductions.

Healthcare Assistance Benefit: benefit offered by the SOE in order to provide healthcare assistance services to its workers and based on a self-funded program, or by expenses reimbursement, or under a private healthcare insurance, or by any other medical and dental assistance modality.

**Healthcare Assistance Programs Funding**: financial resources invested by the SOE and by its employees to provide medical and dental assistance to SOE's workers and to their dependents.

**Interest on Equity** - Besides dividends, the companies also pay interest on equity, which means another way of sharing profit with the companies' shareholders. The difference of such payment is treated as expense in the company's results, while dividend is not.

**Investment Budget (Orçamento de Investimento - OI)** – Comprises of all expenditures recorded in fixed assets, improvements to Federal Government assets carried out by non-dependent state-owned companies, and the necessary improvements to the infrastructure of public services granted by the Federal Government, detailed in projects and activities.

**Investments** – Capital Expenditures made in the year 2020, included in the Investment Budget of non-dependent stateowned enterprises , with: acquisition of goods classified as fixed assets; improvements made to Union assets by stateowned companies; and necessary improvements to the infrastructure of public services granted by the Union.

**Lease** - Contracts that convey the right to use an asset for a period in exchange for consideration.

Liabilities – Obligations that are payable to another person or entity.

**Loans** – Credit Operations between the client and a financial institution where the client receives a certain amount of money that should be returned, in a specific date, with a certain amount of interest contractually agreed.

#### State Owned Enterprises in Brazil | Sest 2020/2021

# Appendix B

**Net Debt** – Short-term debt and Long-term debt minus Cash and equivalents.

**Net Debt/EBITDA** – The ratio shows how many years the company would take to pay back its debt if net debt and EBITDA are held constant.

**Net Income** – The profit or loss of a certain period, after taxes. It's calculated as sales minus cost of goods sold, selling, general and administrative expenses, operating expenses, depreciation, interest, taxes, and other expenses.

**Non-Dependent State Owned Enterprise** - State-owned company that does not receive financial resources from the controlling shareholder, except those arising from an increase in shareholding for investments

**Overfunding** – The situation when the actuarial value of a pension plan's assets is more than it's liabilities, thereby having an actuarial surplus.

**Pension Plans** – Voluntary occupational pension plans arrangement are established by employers (SOEs) to ensure that their employees receive additional income to that paid by the mandatory social security system, thus being a mechanism that allows the employee, optionally, to accumulate reserves so that, in the future, one can enjoy a supplement in retirement.

**Personnel Coverage Index** – It is the percentage of personnel expenses that are paid by the revenues from financial intermediation and service fee income. It is an index applied to the financial sector.

**Personnel Expenses** – all direct and indirect expenses that the company has with its employees.

**Privatization** - Sale of the controlling stake of an SOE directly owned by the state, turning it into a privately owned company.

#### Profit Sharing Program - PLR

**ROE - Return on Equity** - Measure of financial performance calculated by dividing net income by shareholders' equity, is considered a measure of a corporation's profitability in relation to the stockholders' equity. For the calculation it was used the mean of the shareholders' equity of the two last years.

 $\ensuremath{\mathsf{RVA}}$  - Variable remuneration program – C-level variable remuneration programme.

**Shareholders' Equity** - Shareholders' equity is the net amount of a company's total assets and total liabilities, which are listed on the company's balance sheet.

**SOE Size** – Classification of the company relative to its size measured by their annual gross revenue: larger than R\$ 90 million/year and smaller than R\$ 90 million/year

**SOEs' GDP Share** – Calculated from the Gross Value Added (GVA) extracted from the Added Value Statement.

**Subsidiaries** - Companies controlled by state-owned and state-controlled enterprises.

**Subsidy** – Resources transferred from the Brazilian Treasury to dependent state-owned enterprises.

**Sustainable Development Goals** – Adopted by all United Nations Member States, provides a shared blueprint for peace and prosperity in a global partnership.

The Interministerial Committee on Corporate Governance and Corporate Equity Management

Total Assets in Supplementary Pension Plans – Sum of all assets and rights of the pension plans

Total Remuneration of C-level and Board of Directors – It includes a fixed salary and, sometimes, a variable remuneration program. It is important to notice that remuneration of board of directors is composed only by a fixed salary.

**Voluntary Dismissal Plan - PDV** – Considers only employees who are part of the permanent staff of a stateowned enterprise. Does not include outsourced and temporary workers.
