Decree nº 10.387 / 2020, modifies Decree 8.874 / 2016, to provide for incentives to finance infrastructure projects with environmental and social benefits.

The incentivized debentures instituted by Law 12,431 / 2011, related to investment projects in general and specifically to investment projects in the area of infrastructure defined as priority and regulated by Decree No. 8.874 / 2016, enjoy tax benefits and constitute a funding mechanism long-term via the capital market, as an alternative to traditional sources of financing.

In September 2021, 5 (five) infrastructure debentures were offered to the market with a restricted distribution effort, linked to the energy and sanitation. The total volume of the offer distributed in the period was R \$ 1.5 billion. Between 2012 and September 2021, the total volume distributed in infrastructure and investment debentures, with broad and restricted efforts, was R \$ 150.6 billion

Regarding total Issuances distributed Through Public Offers (Brazilian Securities and Exchange Commission - CVM No. 400/2003) and Restricted Offers (Brazilian Securities and Exchange Commission - CVM No. 476/2009), the individual investors participation accounted for R\$ 34.9 billion of the total amount until September 2021, corresponding to 27% of all incentive debentures distributed since 2012.

In the secondary market, in the last 12 months, the trading of subsidized debentures was higher than that of non-incentive debentures, and in september, subsidized debentures turned over 4.1% against 3.5% of non-incentive debentures.

Regarding Anbima Debentures Index (Índice de Debentures Anbima - IDA), In the last 12 months, the IDA-DI value increased by 6.6%, against an increase of 9.8% in the IDA-IPCA (National Consumer Price Index (IPCA)-CPI) Infrastructure and 9.4% in the IDA-IPCA Exclusive Infrastructure. Regarding risk, in the last 12 months, IDA-IPCA Infrastructure reached a risk rate of around 4.4%, while IDA-DI and IDA-IPCA ex-infrastructure respectively reached 0.3% and 3.2%.

Regarding Infrastructure Funds, the percentage investment in Debentures through September 2021 in Fixed Income Funds (Fundos de Renda Fixa - FIRF), was 89%, while investments in Direct Credit Funds reached 95%, of Net Equity (NE).

Law No. 12,431/11 prescribes a minimum investment of 85% of Net Equity in infrastructure projects (debentures, quota funds, and direct credits), although in the first two years from the first pay-in, the minimum permitted percentage of infrastructure assets relative to Net Equity is 67%.

The National Civil Aviation Agency (ANAC) made available on its website - (www.anac.gov.br/assuntos/paginas-tematicas/concessoes) - the financial demonstrations of the airports granted. Such an initiative may contribute to the development of the secondary market for debentures in the sector.

Note :
 The difference between the amount of debentures issued and the number of Administrative Rules issued and Projects related to the debentures issued, is due to having more than one ordinance and project linked to a single debenture - example: Ventos de São Tomé Holding S / A (TOME12) . We had 01 debenture issued for 07 (seven) Administrative Rules, therefore, 07 (seven) authorized projects.
