ENGLISH

Information on technological innovations

All technological innovations presentations will be divided into 3 parts:

1- Exhibition: all technological innovations will have an exhibition area compatible to the size of the innovations products, and will be exhibited throughout the week, from 10/28 to 11/01/2019.

The exhibition area for innovations will be available from Sunday (10/27/2019), the day before the event. Participants' stand will be provided with chairs, counter, internet and electricity.

We ask exhibitors to place a poster (wide 35.4 in x high 47.2 in) to be exhibited at the stand, providing information to the attendees about the innovation.

If the use of a monitor is preferred for presentation, it can be rented to the company **Futura**, by contacting it by email (sac@futuraaudio.com.br) or by phone (+55 67 3045-6400). The available monitors are 50 inches, with flash memory and HDMI input. Those who will present innovation systems can use their own computers or rent out them.

A distribution and description map of the furniture that will be available during the exhibition will be sent, at the latest, on 10/21/2019.

2- **Oral presentations**: an oral presentations schedule for technological innovations is shown below. Each participant will have a maximum of 20 minutes for the presentation and questions and answers' time. The oral presentations will be held at the Auditorium Heliophar de Almeida, which will have projectors and sound system.

10/28/2019

	Title
14:00	Ejercicios de Simulación del Comportamiento del Fuego Forex
14:30	Tecnologia empregada na detecção automática de incêndios florestais informa a coordenada do foco em até 5 minutos
15:00	MARK-3® - the improvements on the truly outstanding and reliable wáter pump and its benefits for the wildland fire operations around the world.
15:30	A Next Generation, Environmentally Sensitive, Water Enhancer to Improve Performance of Direct Attack Fire Suppression
16:00	Bambi Max. Inovação no combate aéreo para controle de incendios florestais
16:30	Sling Dragon:- "The most safe and effective tool for aerial controlled burning
17:00	Bandana de Protección
17:30	Q400 Multi Role land based air tanker

10/29/2019

	Title
14:00	Datasheet Fire Alert
14:30	La simulación de las consecuencias de la toma de decisiones en un entorno táctico de extinción de incendios forestales.

15:00	Wick® 100G FirePump
15:30	Líquido Bonpet: Agente Supressor e Retardante Multiclasse
16:00	Estaciones Meteorológicas de Generación de FWI
16:30	Kit Integral de Seguridad y Autoprotección “Fire Survival” destinado al personal combatiente para hacer frente a situaciones extremas de acorralamiento por fuego.
17:00	Equipamento triplo com CAFS
17:30	Atomizador Soprador com bocal para aplicação de LGE Classe A

3- **Demonstrations**: on the specific Field Trip day (October, 30st), related to "Technological innovations in response to forest fires", practical demonstrations of technological innovations will be carried out during the morning period. The demonstrations will take place in the 3er Batallón de Aviación del Ejército (3rd Army Aviation Battalion). Bus service will be arranged to all participants registered for this Field Trip day.

Practical demonstrations will take place between 8:00 a.m. and 1:00 p.m. and include two helicopters for demonstrations, as shown below:

30/10/2019

	Title
08:30	Kit Integral de Seguridad y Autoprotección “Fire Survival” destinado al personal combatiente para hacer frente a situaciones extremas de acorralamiento por fuego.
09:00	Equipamento triplo com CAFS
09:30	Wick® 100G Fire Pump
10:00	MARK-3® - the improvements on the truly outstanding and reliable wáter pump and its benefits for the wildland fire operations around the world.
10:30	Líquido Bonpet: Agente Supressor e Retardante Multiclasse
11:00	Sling Dragon:- “The most safe and effective tool for aerial controlled burning
11:30	Bambi Max. Inovação no combate aéreo para controle de incendios florestais

A suitable area for burning will be enabled. These areas will feature burners, 2900 gallon pools, and hoses with quick hitch connectors1” and 1 ½”. Fuel cost to operate the motor equipment will be covered by the owner.

Owners of **equipments** must appear with Mr. Marcio Yule on Monday 10/28/2019, at 9:00 am, at the Convention Center, at the Prevfogo stand, to transfer them to the practice site for recognition and demonstration tests.
