

Pesticide mapping

Lilian Törnqvist, September 2015

Pesticide (herbicides, fungicides, insecticides) exposure mapping: A small scale farm, a large farm, residential areas and an airport)

- Places where you spray pesticides (yard, fields, growing plots)
- Storage of pesticides
- Mixing and loading
- Cleaning of spraying equipment
- Cleaning of working clothes
- Animal dipping
- Extraction of drinking water
- Location of school
- Location of homes
- Etc.
