- 27 - OTHER INFORMATION - 2025/2026

PRESENTATION

The Social Security Statistical Bulletin – BEPS is a monthly publication from the General Social Security Regime Secretariat and prepared by the General Coordination of Studies and Statistics, which presents a collection of data, distributed in 27 tables, on the benefits administered by the INSS, the FRGPS cash flow and also information on economic indicators and population data.

Table 1 is meant to bring basic information in a nutshell, with key data on benefits, revenue, cash flow, population and coverage. The following tables 2 to 12 unfold information on benefit concession: according to urban/rural sectors (table 2); quantity and value by species of benefits (tables 3 and 5); quantity and value by value ranges (tables 6 and 7); geographical dispersion according to federal states (tables 8 and 9); and by species of benefits (table 10).

Table 11 shows information on new emissions, benefits which have been paid for the first time in the month of reference and still are not part of the permanent benefit roster; Table 12 benefits conceded by source of decision, according to mainly species from general scheme.

Data 13 to 20 bring data on benefit emission, i.e. credits sent to be paid and generated from the active roster. The table sequence follows the structure used for benefit concession (tables 2 to 12).

Information on tables 21 and 22 refers to benefit cessation and suspension and is usually presented with a delay of one month. The benefits mentioned in those tables were suspended or ceased from the day the payment spreadsheet of the month of reference was generated until the elaboration of the following spreadsheet. Benefit und deferred according to the federation units on table 23. Table 24 brings the monthly evolution, concessions and denials. Requirements in analysis by inss by pending and second federation unit of table 25.

The last two tables show the INSS cash flow (table 26) and other basic data on social security and the economy (table 27). The definitions used are presented after the last table.

For a long time the Brazilian Social Security has been owing information accessible in foreign languages. We hope the Statistical Bulletin helps to fill that gap. Please do not hesitate to contact us if you have any doubts or suggestions on the information presented.

Note: Starting in July 2023, the time series was adjusted because there was a change in the source of information, moving from the Unified Information and Benefits System (SUIBE) to the Task Management Database systems of the National Social Security Institute (BG Tarefas) and the Federal Medical Expertise (BG PMF), in order to include requests for temporary disability benefits under analysis by the federal medical expertise.

Note: Data made available after review of the ETL process of the BG Tasks system

BENEFITS

Benefits consist of monetary payments by Social Security to insured persons or their dependents. They aim at covering the events of sickness, labour accidents, invalidity, death or age, as well as length of contribution and work under hazardous and special health menacing conditions; protection to maternity; family benefit (for each child) and imprisonments benefit; and assistance benefits paid to the aged or disabled persons.

Continued benefits are characterized as continuous monthly payments, which endure until a certain event (e.g. death) cause their interruption. Benefits are adjusted each year to inflation according to an index stipulated by law (currently the INPC – National Consumer Price Index), always the same month than the minimum wage adjustment occurs.

The cycle of a benefit in the social security system comprehends: a) Concession, the flow of new benefits into the system; b) Maintenance, the administration of active and suspended benefits which are part of the roster; c) Cessation, corresponding to the benefits which do not generate credits any longer and are excluded from the active roster; and, d) Emission, which refers to the generation of a payment credit corresponding to an active benefit. A benefit is considered as suspended when it is not generating payment credits; however, it may be reactivated at any moment.

Benefits can be classified as: a) **GENERAL REGIME BENEFITS** are ruled by the General Social Security Regime (Regime Geral de Previdência Social – RGPS); they depend on the contribution of the insured (be they mandatory or voluntary contributors) and encompass general benefits and labour accident benefits. Their monthly value is calculated with reference to the wages on which were calculated the contributions and they are adjusted to inflation according to an index given by legislation. **General Benefits** usually depend on the fulfillment of a minimum contribution period before the insured can qualify to the concession. They include retirement benefits, survivor pensions, temporary benefits, family benefits and maternity benefits. **Labour Accident Benefits** are due to the insured that suffered an accident, or to his/her dependent, if the accident occurs when the insured is working serving a company. Professional or occupational diseases are also listed under labour accident figures, as well as the accident suffered during the displacement of the insured between his/her residence and the work place, provoking lesion or functional impact which cause death or reduce the capability to work; and, b) **SOCIAL ASSISTANCE BENEFITS** are ruled by the Social Assistance Law (Lei Orgânica da Assistência Social – LOAS), granting a monthly minimum wage benefit to those aged 65 or more and to disabled people. In both cases the family income must be below the threshold of 25% of the minimum wage per member. These benefits do not depend on a previous contribution record.

CONCEDED BENEFITS:

Correspond to the benefit requirements presented by insured or their dependents to Social Security, which are analyzed, approved and authorized for payment because they fulfilled all criteria necessary for obtaining the specific benefit. Information displayed refers to the Date of Benefit Analysis (Data de Despacho do Benefício – DDB). Quantity figures include neither alimonies nor splitting of a single survivor pension among different dependents because they correspond to the fraction of a same benefit despite of the existence of a Benefit Number (Número de Benefício – NB) of its own for each fraction. Value data correspond to the converted Initial Monthly Payment (Renda Mensal Inicial – RMI). Conversion is done from the Date of Benefit Start (Data de Início do Benefício – DIB) to the Date of Benefit Analysis (Data de Despacho do Benefício – DDB). Displayed value information does not include positive complements, discounts or delayed benefit payments.

VALUE OF CREDIT EMISSION AT CONCESSION:

Corresponds to the credits emitted for the first payment of conceded benefits. From the second payment on credit emissions are displayed in the tables referring to Benefit Emission. Unlike information displayed in other concession tables, values refer to net values, which means the difference between the gross value (value of the benefit plus complements, etc.) and the value of discounts (income tax, alimonies, etc.), including, if given, the value of delayed payments. The reference month corresponds to the payment date and not to the Date of Benefit Authorization (DDB), used in the rest of the concession tables.

EMITTED BENEFITS:

Emitted benefits are credits sent to the payment system referring to continuous payment benefits that are in the active benefit roster. Positive Complements (Complementos Positivos – CP) of a benefit, e.g. those stemming from a judicial decision, reactivation or revision of a benefit, etc. also constitute emitted credits as long as they are of low unitary value. Emitted benefits do not include Alternative Benefit Payments (Pagamentos Alternativos de Benefícios – PAB), which are commanded by Social Security Offices (Agências da Previdência Social – APS) and paid directly at Banco do Brasil. The amount of emitted credits can be larger than the quantity of active benefits because one benefit may generate more than one credit within a single month. Information on quantity includes alimonies and survivor pension unfolding. Value information refers to the net value, obtained by the difference between the gross value (benefit value plus complements, family benefit, etc.) and the value of reductions (income tax, alimonies, etc.). Tables 12, 13 and 14, unlike all other tables, consider the value of the benefit plus complements and do not incorporate non-permanent credits nor reductions. Information usually refers to the calendar month of the benefit, not the payment month. The 13th yearly payment are part of the calendar months of August and November, paid in the months of September and December respectively.

REQUIREMENTS, DENIALS AND BENEFITS UNDER ANALYSIS:

REQUIRED: Quantity of benefit processes requested whose Application Entry Date is the reference month.

DENIED: These are benefit processes requested, dispatched and not granted, as they do not meet the legal requirements for granting.

UNDER ANALYSIS: They correspond to the stock of requested benefits processes that have not yet been dispatched by the INSS, that is, they have not been the subject of medical expertise, granted, rejected or closed until the reference month, or that are awaiting additional documents or information from the applicant. They include requirements that have DER and do not have DDB.

Information relating to benefits requested, denied and under analysis includes social security, accident, assistance and Specific Legislation Benefits (BLE).

SUSPENDED BENEFITS:

Correspond to the benefits of the roster that, temporarily, do not generate credit for payment, although their value is updated each month and they can be reactivated any time by the INSS. They include alimonies and split survivor benefits.

CEASED BENEFITS:

Correspond to continuous benefits that do not generate credits for several possible reasons, like death, medical decision, transformation into another benefit, legal age limit surpassed, etc. in accordance to legislation. Since the communication of the event generating the cessation of a benefit may occur, in some cases, with delay, those information are subject to ulterior correction. They include alimonies and split survivor benefits.

AVERAGE CONCESSION TIME:

Corresponds to the average number of days used to conclude a concession process. The time is measured between the Requirement Entrance Date (Data de Entrada do Requerimento – DER) or Date of Document Regularization (Data de Regularização da Documentação – DRD) if there had been some information to be provided by the insured and the Date of Benefit Analysis (Data de Despacho do Benefício – DDB). Encompasses all benefits under normal analysis process, except those in phases 3 (administrative appeal) and 4 (at court).

CASH FLOW:

Corresponds to the financial movimentation of Social Security, with daily monitoring of inflows (revenues) and outflows (payments) of financial resources in the INSS accountability.

OTHER SOCIAL SECURITY INFORMATION

MINIMUM BENEFIT GUARANTEE: Is the minimum value established by Constitution, Art. 201, § 2º, which reads as follows: “No income substituting benefit should be lower than the monthly value of the official minimum wage.”

CONTRIBUTION CEILING: It is the largest value of the contribution basis to the General Regime.

BENEFIT CEILING: It is the largest value of benefits paid by the General Regime (except maternity benefits and court decisions).

FAMILY BENEFIT: Due to the employee and the day worker, be them active or retired by age, invalidity or all other retired after age 65 if men and 60 if women, or still if receiving sickness benefit, according to the number of children aged until 14 or of any age if invalid. Starting January 2026, the family benefit for each child or similar until age 14 or invalid of any age, corresponds to:
a) R\$ 67,54 (Sixty-seven reais and fifty-four centavos) with monthly income of up to R\$ 1,980,38 (One thousand, nine hundred and eighty point thirty-eight).

CONTRIBUTION BASIS:

The contribution basis lies between the minimum official wage and the contribution ceiling (respectively R\$ 1.621,00 and R\$ 8.475,55 – starting January 2026): a) for the employee and day worker – the remuneration received in one or more companies, comprehending the totality of all income paid in exchange for work during that certain month; b) for the domestic employee – the remuneration registered in the individual Labour Booklet (Carteira de Trabalho e Previdência Social – CTPS); c) for the self employed – the remuneration received for services to one or more companies or for the autonomous work during that certain month; and for the voluntary insured – the value declared.

BENEFIT CALCULATION BASIS:

It is the basic reference used to calculate the monthly value of continuous benefits: a) for retirement by age and length of contribution, the arithmetic average of the 80% largest monthly contribution bases, inflation adjusted, multiplied by the demographic factor (fator previdenciário – mandatory in case of length of contribution, optional in case of age); and for the retirement by invalidity, special retirement due to health hazards, sickness benefit and partial invalidity benefit, the arithmetic average of the 80% largest monthly contribution bases, inflation adjusted.

CONTRIBUTORS TO THE GENERAL REGIME:

Contributors to Social Security are the company or similar, the domestic employer and the worker. The following persons are compulsory contributors: employee, domestic employee, self employed, day worker and special rural insured. There are still those who voluntarily affiliate to Social Security, the voluntary contributors. Each contributor has a specific kind of contribution. The main concepts are:

- **COMPANY** – individual firm or society which assumes the risk of urban or rural economic activity, with purpose of profit or not, as well as organisms of public direct or indirect administration and their foundations. Similar to a company, for social security purposes, is a self employed who hires the service of another insured, as well as cooperatives, associations or entities of any kind, diplomatic and consular foreign missions.
- **DOMESTIC EMPLOYER** – Person or family which admits, without purpose of profit, domestic employee(s).

- **WORKER** – Can be classified as follows:

Employee – Delivering continuous services to urban or rural companies, subordinated and in exchange for remuneration, including the employed directors; and,

Day Worker – Delivers services to one or more urban or rural companies, without permanent employment, with intermediation of unions or manpower organizations (usually at ports).

- **SELF EMPLOYED** – Law 9.876/1999 unified employers, autonomous workers and similar into one single group. It includes: farmers; gold washers; religious ministers; civil Brazilians working abroad; urban and rural employers; worker which sells services occasionally; and the autonomous worker. Decree 3.048/1999 also includes: the member of a cooperative, association or similar, as well as the house keeper elected, which work for remuneration, the retiree of any regime nominated temporary class judge of Labour Justice or Electoral Justice and others.

Autonomous Worker and Similar – The person delivering eventual urban or rural services to one or more companies a without employment relation; or the urban or rural self employed with or without purpose of profit.

Employer – Corresponds to the owner of a firm, not employed director, member of administration board and similar.

- **DOMESTIC EMPLOYEE** – Person which delivers continuous services to another person of family, in exchange of remuneration, without purpose of profit.
- **VOLUNTARY INSURED** – Person aged 16 or more which affiliates to the General Regime and pays contributions, provided he/she does not perform remunerated work which turns him/her into a mandatory insured.
- **SPECIAL RURAL INSURED** – Farmer, partner, sharer or tenant, small fisher or similar, which perform those activities individually or within their families, including children aged 16 or more and similar, provided they work with the respective family group.

INSS EXPLANATORY NOTE ON CHANGES IN TABLE 25

"The INSS provided the formation of a Working Group - GT, through PRES/INSS Ordinance No. 1,608, of September 20, 2023, establishing the INSS Continuous Information Improvement Program - PMCI. This is a crucial step, having in view of the need to harmonize the methodology and extractions for generating information for the Transparency Portal and BEPS.

One of the preliminary findings was the incompatibility of using two different administrative systems to account for information. For example, when a citizen has their benefit granted in court, the responsible public servant must enter the application into the system. In some situations, the server enabled the same requirement twice: completing one and leaving the other open. This results in double counting of the same citizen for a single benefit request, generating inconsistencies in the data.

Therefore, it was decided to adopt the BG TASTAS do INSS (to view the INSS administrative queue) and BG TASTAS PMF (to view the Federal Medical Expertise queue) as systems for extracting information, using information aiming for greater precision and reliability. in the data, to guarantee the insured's vision and promote data synchronization between the Transparency Portal and BEPS.

The main objective of the GT is to raise the quality standard of information disclosed by both the INSS and the Federal Medical Expertise. This is a continuous and dynamic process, committed to the accuracy, reliability and transparency of data. Therefore, it is possible that methodological adjustments will be made in the future, which will be duly communicated to the public.

The GT is made up of professionals specialized in different areas. Members include Ana Luzia Ottoni de Souza, Anderson Sousa Batista Machado, André de Lima Machado, Bruno Batista Barreto, Cláudio Marcos de Almeida Silva, Clayrton Zancan, Geovani Batista Spiecker, Israel Eduardo Zebulon Martins de Souza, José Renato Morais Mousinho, Natasha de Oliveira Alcantara Souza, Neide Aparecida Moreira, Nilson de Carvalho, Patrícia Pinto Coutinho, Renata Gomes Alcoforado (coordinator) and Suelia Maria Valadares Guimaraes."
